

DISCLAIMER

This manual is intended for use as a voluntary guidance document for small to medium size Michigan businesses that want to create an environmental management system. The manual is tailored to meet the requirements of the state's Clean Corporate Citizen (C3) Program. You can, however, use the manual to develop an effective EMS, no matter your business size or purpose.

The rule references are correct as of December 2006. Use of this document does not, however, guarantee acceptance in the Clean Corporate Citizen Program nor does it provide any type of legal or regulatory relief or protection.

To ensure compliance with all applicable laws and regulations, consult your legal counsel and the appropriate agency with jurisdiction for your facility.
