Self-Audit Forms for Dry Cleaning

Facility Name _____________________________________

Facility Address ___________________________________________

City __________________ State ___________ Zip ____________

Phone Number __________________________________________

Contact Name ____________________________________________

Audit Date __/__/____

INSTRUCTIONS

1. Enter your facility information in the fields above as shown in the example to the right. Be sure to darken the appropriate box beneath each number. Your establishment number is printed on your dry cleaning license issued by the DEQ.

2. Complete the audit starting on the next page. Answer every question unless you are directed to skip it. Be sure to either put an “X” in the box that is your answer or darken the box completely.

3. Some answers may require you to complete a Return-to-Compliance (RTC) Plan. This means that you are not complying with the requirement and must complete a RTC Plan located at the back of this audit. Use this plan to explain how you will return to compliance. Only submit an RTC Plan for violations that you are unable to correct BEFORE submitting your self-audit. The completed RTC plans(s) should be submitted with the completed audit.

4. Return all nine pages of this self audit and any RTC plans to the DEQ using the envelope included in the audit package you received OR if completing an electronic version of the audit, e-mail the completed forms to ostrowsj@michigan.gov.

Mailing address: DEQ, ESSD - Environmental Results Program P.O. Box 30457, Lansing, MI 48909-7957

### PART 1: PERCHLOROETHYLENE (PERC) DRY CLEANING MACHINE

#### General Requirements for All Perc Dry Cleaning Machines

<table>
<thead>
<tr>
<th>Question</th>
<th>Yes</th>
<th>No</th>
<th>Complete RTC</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1. Is the Machine operated according to manufacturers' specifications?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.2. Are machine operating manuals kept on site?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.3. Is the dry cleaning machine door kept closed, except for loading and unloading?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.4. Do you keep a log of the gallons of perc purchased each month?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.5. Are all perc purchase logs kept on file for five years?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.6. Are all cartridge filters drained 24 hours before removal?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.7. Are the following components of the machine inspected weekly/bi-weekly* for leaks?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- All hose and pipe connections, fittings, couplings, and valves</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Door gaskets</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Filter gaskets</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Pumps</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Solvent tanks and containers</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Muck cookers, stills</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Water separator</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Exhaust dampers</td>
<td></td>
<td></td>
<td></td>

<tr>
<td>- Diverter valves</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Cartridge filter housing</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.8. Is the machine inspected monthly while in operation with a halogenated hydrocarbon detector?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.9. If a leak is detected, is it repaired in 24 hours or if it cannot be repaired in 24 hours are parts ordered within 2 working days and installed within 5 days of receiving them?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.10. Do you keep a log of the date of any necessary repairs made to the machine?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.11. Do you keep a log of machine inspections that identifies any components that are leaking?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.12. Was the dry-to-dry machine installed before 12/9/91 AND did facility purchase less than 140 gallons of perc per year during all previous 12-month periods?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

RTC = Return to Compliance Plan, which can be found at the end of the audit forms.

* Inspection required biweekly if machine installed prior to 12/9/91 and purchase less than 140 gal perc per 12-month period.
# PART 1: PERC DRY CLEANING MACHINE (continued)

## Small and Large Dry-to-Dry Machine Control Requirements

1.13. Do all dry-to-dry machines installed *before* 12/9/91 have an external refrigerated condenser OR a carbon adsorber that was installed prior to 9/22/93? *(Choose N/A if machine installed after 12/9/91)*

- Yes
- No
- N/A

1.14. Do all dry-to-dry machines installed *after* 12/9/91 have an internal refrigerated condenser? *(Choose N/A if machine installed before 12/9/91)*

- Yes
- No
- N/A

1.15. Do all dry-to-dry machines initially installed after 12/21/05 have an internal carbon adsorber AND refrigerated condenser? *(Choose N/A if machine installed before 12/21/05)*

- Yes
- No
- N/A

1.16. If machine was installed *after* 12/21/05 OR facility purchased more than 2,100 gallons of perc per 12-month period, is the concentration of the perc in the dry cleaning machine drum at the end of the cycle measured weekly with a colorimetric detector tube or PCE gas analyzer? *(Choose N/A if machine installed before 12/21/05 and purchased less than 2,100 gal perc/12-mo period)*

- Yes
- No
- N/A

1.17. Is the concentration of perc less than 300 ppm?

- Yes
- No

1.18. Are the external refrigerated condensers on a vented machine routed properly so that the air-perc stream is not vented directly to atmosphere while drum is rotating? *(Choose N/A if machine has no refrigerated condenser or is a non vented machine)*

- Yes
- No
- N/A

1.19. Is the outlet temperature of the vapor stream passing through the cooling coil (refrigerated condenser) read weekly and is it equal to or less than 45°F (±2°F) or 7.2°C (±1.1°C)? *(Choose N/A if reading pressure gauge to comply, see question 1.20)*

- Yes
- No
- N/A

1.20. Are the high and low pressures of the refrigeration system read and recorded on a weekly basis? *(Choose N/A if no pressure gauges)*

- Yes
- No
- N/A

1.21. Are the pressures within those specified by the manufacturer? *(Choose N/A if no pressure gauges)*

- Yes
- No
- N/A

1.22. Is the date, temperature sensor or pressure gauge monitoring results recorded weekly?

- Yes
- No
- N/A

1.23. Is the date, temperature sensor or pressure gauge monitoring results kept on file for five years?

- Yes
- No

## External Control Requirements

1.24. Is machine equipped with an external carbon adsorber?

- Yes
- No

Skip to 1.30
### PART 1: PERC DRY CLEANING MACHINE (continued)

1.25. If an external carbon adsorber is installed on a vented machine, is none of the air-perchloroethylene gas-vapor stream allowed to bypass the carbon adsorber to the atmosphere?  
   - Yes
   - No  
   Complete RTC

1.26. Is the concentration of perc in the exhaust of the external carbon adsorber measured weekly using a colorimetric detector tube or PCE gas analyzer?  
   - Yes
   - No  
   Complete RTC

1.27. Is the concentration of perc in the exhaust of the external carbon adsorber less than 100 parts per million per volume?  
   - Yes
   - No  
   Complete RTC

1.28. Are the date and colorimetric detector tube monitoring results recorded weekly?  
   - Yes
   - No  
   Complete RTC

1.29. Are the date and colorimetric detector tube monitoring results kept on file for 5 years?  
   - Yes
   - No  
   Complete RTC

1.30. Are necessary repairs made to the refrigerated condenser and/or carbon adsorber?  
   - Yes
   - No  
   Complete RTC

1.31. Was a Notification of Compliance Status Form submitted to the MDEQ?  
   - Yes
   - No

### PART 2: PETROLEUM SOLVENT MACHINE

2.1. Does facility have a dry cleaning machine that uses a petroleum solvent?  
   - Yes
   - No  
   Go to Part 3

2.2. Is the TOTAL manufacturers’ rated dryer capacity for all dryers used for petroleum solvent equal to or greater than 84 pounds (38 kilograms)? (see explanation below) AND  
   - Yes
   - No  
   Go to Part 3

   **Manufacturer’s rated dryer capacity** is the dryer’s (dry-to-dry machine’s) rated capacity of articles, in pounds or kilograms of clothing articles per load, dry basis that is typically found on each dryer on the manufacturer’s name-plate or in the manufacturer’s equipment specifications. If the manufacturer’s rated dryer capacity for all the dryers at the plant combined is equal to or greater than 84 pounds, then the source is subject to the requirements in this section.

2.3. Is the filter a cartridge filter?  
   - Yes
   - No  
   Complete RTC

2.4. Are cartridge filters drained in their sealed housings for at least eight hours prior to their removal?  
   - Yes
   - No  
   Complete RTC

**RTC** = Return to Compliance Plan, which can be found at the end of the audit forms.
**PART 2: PETROLEUM SOLVENT MACHINE (continued)**

<table>
<thead>
<tr>
<th>Question</th>
<th>Yes</th>
<th>No</th>
<th>Complete RTC</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.5. Is leak inspection and leak repair cycle information in the operating manual and on a clearly visible label posted on the dryer?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.6. Was the dryer installed between December 14, 1982 and September 21, 1984</td>
<td></td>
<td></td>
<td>Skip to 2.8</td>
</tr>
<tr>
<td>2.7. Does facility use more than 4,700 gallons (17,791 liters) of solvent per year?</td>
<td></td>
<td></td>
<td>Go to Part 3</td>
</tr>
<tr>
<td>2.8. Is the dryer a solvent recovery dryer?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.9. Was an initial performance test conducted to verify that the flow rate of recovered solvent from the solvent recovery dryer at the termination of the recovery cycle is no greater than 0.05 liters per minute?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.10. Does facility have a copy of the initial performance test?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**PART 3: WASTE**

<table>
<thead>
<tr>
<th>Question</th>
<th>Yes</th>
<th>No*</th>
<th>Complete RTC</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1. Does your facility generate less than 220 pounds of hazardous waste per month?</td>
<td></td>
<td></td>
<td>Go to Part 4</td>
</tr>
<tr>
<td>3.2. Does your facility have a site identification number when needed for waste shipment? (Choose N/A if you do not ship waste off-site)</td>
<td>Yes</td>
<td>No</td>
<td>N/A</td>
</tr>
<tr>
<td>TIP: Site ID should appear on all Uniform Hazardous Waste Manifests with MIK, MIR, MID MIT, MIE, MIO, or MIG prefix.</td>
<td></td>
<td></td>
<td>Skip to 3.7</td>
</tr>
</tbody>
</table>

### Manifests and Shipping Records

<table>
<thead>
<tr>
<th>Question</th>
<th>Yes</th>
<th>No</th>
<th>Complete RTC</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.3. Does each shipment of hazardous waste or liquid industrial waste have a manifest or receipt from the waste hauler that identifies manifest number and the type and quantity of waste shipped?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.4. Is the waste properly listed on the manifest form (e.g., F002) and is the quantity shipped entered on the manifest form?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.5. Has a copy of each manifest been signed by the waste hauler and submitted to the MDEQ by the 10th of the month following the shipment?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.6. Are all copies of the manifest that are signed by the hauler and disposal facility kept on file for at least 3 years?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* Facilities that generate less than 220 pounds of hazardous waste per month are subject to fewer requirements than those that generate more than 220 pounds. **If your facility generates more than 220 pounds of hazardous waste per month you cannot use this part audit.** See page 8 of the Self-Audit Workbook for more information.
## PART 3: WASTE (continued)

### Hazardous Waste Storage

<table>
<thead>
<tr>
<th>Question</th>
<th>Yes</th>
<th>No</th>
<th>Recommended</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.7. Is each storage container labeled with the name of the contents (e.g., perc waste, filters) and is the label readable? Container may be labeled using purchased labels, a stencil, or the completed shipping label.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.8. Is each container that is being shipped labeled according to the US DOT Shipping requirements? (E.g. does it have a completed US DOT shipping label?)</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.9. Is less than 2,200 pounds (5 drums) of hazardous waste accumulated on site?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.10. Are containers in good condition and kept closed except when adding or removing waste?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.11. Is the exterior of the storage containers kept free of the liquid waste and its residue?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.12. Are containers protected from the weather? If storing containers outdoors, they are placed on an impervious surface and protected from the elements.</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.13. Are containers protected from fire and secure from vandalism and physical damage such as that caused by fork lifts or other equipment?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.14. Are the containers compatible with the type of waste being stored in them and are containers that have wastes that could react with each other separated by a physical barrier, like a dike, berm, or wall, or by a safe distance?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.15. Is there adequate aisle space for unobstructed movement of emergency equipment and personnel?</td>
<td></td>
<td></td>
<td>Recommended</td>
</tr>
<tr>
<td>3.16. If contents have a flashpoint below 200° F, are they isolated according to local fire department recommendations?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.17. If a leak or spill occurs does facility immediately stop and contain the leak and repair or replace the container?</td>
<td></td>
<td></td>
<td>Complete RTC</td>
</tr>
<tr>
<td>3.18. Have employees been trained on how to properly manage waste?</td>
<td></td>
<td></td>
<td>Recommended</td>
</tr>
<tr>
<td>3.19. Does hazardous waste storage area have secondary containment such as a curb, ramped pad, dike, or containment room?</td>
<td></td>
<td></td>
<td>Recommended</td>
</tr>
<tr>
<td>3.20. Are you doing any of the best management practices listed in Table 3.1 of the Self Audit Workbook?</td>
<td></td>
<td></td>
<td>Recommended</td>
</tr>
</tbody>
</table>
### PART 3: WASTE (continued)

#### Liquid and Hazardous Waste Disposal

3.21. Are hazardous wastes that are a liquid shipped to a licensed recycling, treatment, storage, or disposal facility?  
- [ ] Yes  
- [ ] No  
  [ ] Complete RTC

3.22. Is your facility complying with the following requirements?  
- [ ] Yes  
- [ ] No  
  [ ] Complete RTC

- Liquid hazardous wastes are never disposed of in a dumpster, solid waste landfill, or incinerator.
- Waste is not put into the municipal sanitary sewer system without authorization from local wastewater treatment plant.
- Hazardous waste is not flushed into a septic tank, down a storm drain, into a stream, or on the ground.

3.23. Is your facility doing any of the following best management practices?  
- [ ] Yes  
- [ ] No  
  [ ] Recommended

- Hazardous wastes that are solids are disposed of in one of the following ways:
  - shipped to a licensed recycling, treatment, storage, or disposal facility
  - taken to a household hazardous waste collection site that is willing to accept your hazardous waste.

- “Solid” hazardous wastes are not disposed of in a solid waste landfill, municipal waste incinerator, or in a dumpster.

#### Fluorescent Tubes, Lamps, and Batteries

3.24. Does your facility recycle fluorescent tubes, incandescent lamps, and/or dry cell batteries? Only put this waste in your trash (dumpster) with permission from waste hauler and/or landfill (Some haulers and landfills may no longer accept these wastes due to the lead and mercury contained in them.)  
- [ ] Yes  
- [ ] No  
  [ ] Recommended  
  [ ] Skip to 3.27

3.25. Are fluorescent tubes, incandescent lamps, dry cell batteries, stored for recycling according to the following requirements?  
- [ ] Yes  
- [ ] No  
  [ ] Complete RTC

- Stored not over one year after generation.
- Records are kept that show how long they have been stored using a method that clearly demonstrates how long they have been accumulated.
- Waste is labeled or the container holding the waste is labeled with the following: “universal waste electric lamps,” “waste electric lamps,” “used electric lamps,” or “universal waste batteries,” “waste batteries,” “used batteries.”
- Waste must be stored in a way that prevents any spills or releases. Containers must be kept closed, in good condition, and be compatible with the type of waste stored in the containers.
- No more than 11,000 pounds of these wastes can be accumulated at any one time.

3.26. Have employees who handle fluorescent tubes, incandescent lamps, and dry cell batteries, been informed about proper handling of these waste materials and any emergency procedures?  
- [ ] Yes  
- [ ] No  
  [ ] Complete RTC

3.27. Does your facility do any of the following?  
- [ ] Yes  
- [ ] No  
  [ ] Recommended

- Recharge and use batteries that are still rechargeable.
- Use low-mercury, energy-efficient fluorescent/HID light bulbs.
- Keep recycling or disposal receipts for at least 3 years, and know who takes them to be recycled or disposed.

**RTC** = Return to Compliance Plan, which can be found at the end of the audit forms.
### PART 3: WASTE (continued)

#### Solid Waste Requirements

3.28. Is all solid waste hauled to a recycling center or a licensed disposal facility, which includes: a landfill, incinerator, or a transfer/processing facility?  
- Yes
- No  
- Complete RTC

3.29. Is waste stored in leak-proof, covered containers (e.g. covered dumpster)?  
- Yes
- No  
- Complete RTC

3.30. Does your facility recycle or reuse office paper, corrugated cardboard, wood pallets, 55-gallon clean drums, other containers, or scrap metal?  
- Yes
- No  
- Recommended

### PART 4: STORAGE TANKS

4.1. Does your facility store fuel, solvents, or other material in an aboveground storage tank?  
- Yes
- No  
- Go to Part 5

4.2. Does the storage tank have secondary containment?  
- Yes
- No  
- Complete RTC

4.3. Is the tank any of the following?  
- Used to supply flammable or combustible liquid with a storage capacity of more than 1,100 gallons. *This includes dry cleaning solvents and/or fuel oil.*
- A flammable compressed gas or LPG container filling location.
- An LPG tank with a water capacity of more than 2,000 gallons, or two or more tanks with an aggregate water capacity of more than 4,000 gallons?  
- Yes
- No  
- Skip to 4.5

4.4. Has the tank been certified by the Michigan Department of Environmental Quality Waste and Hazardous Materials Division?  
- Yes
- No  
- Complete RTC

4.5. Does the tank meet the requirements in Table 4.1 of the Self Audit Workbook?  
- Yes
- No  
- Complete RTC

### PART 5: WASTEWATER

5.1. Is your facility connected to a sewer system that goes to a wastewater treatment plant?  
- Yes
- No  
- Skip to 5.6

5.2. Does your facility empty wastewater from any dry cleaning machine into a drain, toilet, or sink?  
- Yes
- No  
- Skip to 5.4

5.3. Does your facility have permission from the wastewater treatment plant to dispose of wastewater from dry cleaning machine into the sewer system? *(e.g., permit, letter, or written authorization from WWTP)*  
- Yes
- No  
- Complete RTC

5.4. Does your facility empty wastewater from laundry area, air compressor, boiler, vacuum, or floor cleaning into a drain, toilet, or sink?  
- Yes
- No  
- Skip to 5.6
### PART 5: WASTEWATER (continued)

<table>
<thead>
<tr>

<td></td>
<td></td>
</tr>
<tr>
<td>rating at the facility and is one of those fire extinguishers</td>
<td></td>
<td></td>
</tr>
<tr>
<td>mounted near the dry cleaning machine?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6.2. Does facility have an approved organic vapor respirator?</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**RTC = Return to Compliance Plan, which can be found at the end of the audit forms.**

**This is the end of the Self-Audit.**

Please mail the completed, nine-page Self-Audit Forms and any completed RTC Plans to the MDEQ in the self addressed envelope that was included with your audit packet.
Return-to-Compliance Plan

If you are not in compliance with a requirement identified in the audit, you will be directed to complete a Return-to-Compliance (RTC) Plan. You must complete an RTC Plan for each requirement you do not meet. Four RTC Plans can be entered on this page. If additional plans need to be submitted, make copies of this form or print addition forms from the following website [www.michigan.gov/deqenvassistance](http://www.michigan.gov/deqenvassistance) (select “Dry Cleaners”). **Only submit an RTC Plan for violations that you are unable to correct BEFORE submitting your self-audit to the Michigan Department of Environmental Quality.**
