Authority Governing the Certification of Water Works Personnel in Accordance with State Law and Administrative Rules

(Excerpts From the Act and Rules as Amended 12/4/2009)

SAFE DRINKING WATER ACT

Act 399, Public Acts of 1976

AN ACT to protect the public health; to provide for supervision and control over public water supplies; to prescribe the powers and duties of the department of environmental quality, to provide for the submission of plans and specifications for waterworks systems and the issuance of construction permits therefore; to provide for the classification of public water supplies and the examination, certification and regulation of persons operating those systems; to provide for continuous, adequate operation of privately owned, public water supplies; to authorize the promulgation of rules to carry out the intent of the act, and to provide penalties.

Sec. 9 (1) The department shall classify water treatment and distribution systems with regard to size, type, location, and other physical conditions for the purpose of establishing the skill, knowledge, and experience that individuals need to maintain and operate the systems effectively.

(4) For individuals meeting the requirements, the department shall issue certificates acknowledging their competency to operate a specified class of waterworks system or portion thereof. The department may suspend or revoke a certificate as specified by rule.

(5) A water treatment and distribution system shall be under the supervision of a properly certified operator as specified in the rules.

THE RULES TO IMPLEMENT ACT NO. 399, P.A. 1976

R 325.11901 Classification of treatment systems.

Rule 1901. (1) Complete treatment systems are classified based on population served by the public water supply or rated treatment capacity of the treatment system as follows:

(e) Class F-5: Complete treatment systems for noncommunity supplies.

(2) Limited treatment systems are classified based on population served by the public water supply or rated treatment capacity of the treatment system as follows:

(e) Class D-5: Limited treatment systems for noncommunity supplies.

(3) Waterworks systems that use as a source surface water or ground water under the direct influence of surface water shall be classified as F systems.

R 325.11902 Classification of distribution systems and other public water supplies.

Rule 1902. The following classifications are assigned to public water supplies:

(e) Class S-5: Nontransient noncommunity water supplies with no treatment or community supplies with no treatment and a distribution system limited in extent.

R 325.1195 Rule 1915. (1) The department shall renew a certificate on a 3-year cycle.

(2) To have a Class F-5, Class D-5, or Class S-5 certificate renewed, a certificate holder shall have completed not less than 9 hours of advisory board-approved training or continuing education during the renewal cycle.
