COLLABORATIVE STAKEHOLDER INITIATIVE (CSI) – REINVENTION OF STATE’S CLEANUP AND REDEVELOPMENT PROGRAMS. Michigan’s environmental remediation and brownfield redevelopment programs are undergoing a significant transformational change in 2012 and beyond. Please click [HERE](#) to view the CSI Web page and the most recent 30-day and 90-day reports that highlight recent accomplishments and next steps for the CSI. Since February 2012, staff with the Michigan Department of Environmental Quality (DEQ) [Remediation Division](#) (RD) have been collaborating with stakeholders from around the state in an expedited initiative to develop and carry out recommendations that will reinvent and revitalize the state’s cleanup and redevelopment programs and the regulatory environment while continuing to protect public health and our natural resources. The DEQ/RD selected the following seven areas on which to focus recommendations for improvement.

- | | |
|----------------------------------|-----------------------------------|
| Brownfield Redevelopment | Groundwater Surface Water Interfa |
| Cleanup Criteria | Part 201 Rules |
| Due Care Obligations | Vapor Intrusion |
| Free Product/Source Removal/Csat | |

LEAKING UNDERGROUND STORAGE TANKS REGULATION REVISED. ALSO, QUALIFIED UNDERGROUND STORAGE TANK CONSULTANTS (QC) AND CERTIFIED UNDERGROUND STORAGE TANK PROFESSIONAL (CP) PROGRAM REPEALED. On May 1, 2012, legislative amendments to Part 213, Leaking Underground Storage Tanks, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), were signed by Governor Snyder and became immediately effective. The amendments require the use of the Risk-Based Corrective Action (RBCA) processes developed by the American Society of Testing & Materials (ASTM) as the basis for addressing contaminated properties. The legislative changes also modify time frames for reports required to be submitted by owners or operators responsible for leaking underground storage tank releases. If the required reports, (which are to document corrective actions taken at a leaking underground storage tank (LUST) site based on the ASTM RBCA standard), are not audited by the DEQ within specified timeframes, they are considered approved by operation of law. Overall, the amendments intend to provide more cost effective and efficient closures of LUST releases while maintaining acceptable protectiveness of human health. The May 1st legislation also amended Part 215, Refined Petroleum Fund (RPF) of the NREPA. The Part 215 changes repealed the DEQ’s obligation to evaluate and annually update a list of QCs and CPs approved to perform leaking UST cleanup work. The owner or operator is now responsible for assuring that the consultant, who must sign an affidavit attesting to their qualifications as well as the content of a Closure Report, meets the minimum QC qualifications established in Part 213. Additionally, the Part 215 revisions include extending the collection of the RPF fee for three years, to December 31, 2015. The fee is currently used, in part, to fund state costs incurred when addressing *orphaned* (no liable party) leaking UST sites. The new law also requires that the DEQ establish an Underground Storage Tanks Cleanup Advisory Board that is to report to the legislature, by March 1, 2013, recommendations on using RPF money to assist owners and operators in financing corrective actions required by Part 213. [Viewing of the Part 213 and Part 215 amendments](#) is possible by entering the Michigan Legislative Website at: www.legislature.mi.gov and searching on Senate Bills 528 through 533 (enter bill number in LEGISLATIVE BILL SEARCH - **Bill Number (current session)**) and when taken to the specific bill Webpage select “**Public Act**” from the Documents list.). JOINT PERMIT APPLICATION PUBLIC NOTICE DISTRIBUTION CHANGE. The Department of Environmental Quality, Water Resources Division (WRD) is modifying the way public notices for Joint Permit Application projects are distributed. Entire public notice packages are posted and available electronically at www.deq.state.mi.us/lwmpnh/. To increase efficiency and reduce cost in public notice distribution, the WRD is now mailing only the public notice project summary (not the complete package). Those interested in the project are encouraged to view the entire public notice package (public notice summary, application, and attachments) at the above Website. To access this information, enter the file number on the left panel and view by clicking on the icon next to the public notice date. Comments may be sent electronically by clicking on the icon next to the comment period date. Entire public notice packages are also available for viewing at local WRD district offices. A hard copy of the entire public notice package may be requested by calling your WRD district office (www.mi.gov/deq, "locations"), or by calling the WRD Central Office at 517-373-9244, or by e-mailing deq-wrd-jointpermit@michigan.gov. The WRD posts approximately 1,000 Joint Permit Application public notices each year.

Public Hearings and Meetings

AIR PERMIT APPLICATION WORKSHOP FOR FIRST-TIME APPLICANTS, CONSTITUTION HALL, LANSING, MICHIGAN. For most first-time applicants, completing the Permit to Install application is a daunting task. However, submitting a complete and timely application can be more manageable if you know what's expected. The Michigan Department of Environmental Quality is offering this workshop designed to give information on how to submit a complete permit application. Since this workshop is geared to first-time applicants, a significant portion of the session is devoted to your specific application. Air Quality Division permit engineers will be available to discuss your permit application with you one-on-one. To take full advantage of this time with the permit engineer, it is recommended you bring detailed information about your project with you to the session. This training is designed for first-time air permit applicants who need help completing their permit application; however, those who have applied before and need a refresher are welcome to attend as well. Registration fee is \$35 and includes workshop materials. Updated workshop information and registration is available on the Web at www.michigan.gov/deqworkshops, click on "DEQ Workshops". Information Contact: **James Ostrowski**, Office of Environmental Assistance, 517-241-8057, or e-mail at ostrowskij2@michigan.gov. Registration Information: **Environmental Assistance Center**, 800-662-9278, or e-mail at deq-assist@michigan.gov.

OCTOBER 16-17,
2012

ITRC LIGHT NONAQUEOUS-PHASE LIQUIDS (LNAPL): SCIENCE, MANAGEMENT, AND TECHNOLOGY TRAINING, SHERATON DETROIT NOVI HOTEL, NOVI, MICHIGAN. The Michigan Department of Environmental Quality invites you to join over 50 of our staff members in a 2-day training event: *Light Nonaqueous-Phase Liquids: Science, Management, and Technology* from the Interstate Technology and Regulatory Council (ITRC). This ITRC training event is based on the ITRC technical/regulatory guidance document [Evaluating LNAPL Remedial Technologies for Achieving Project Goals \(LNAPL-2\)](#) which was utilized in the revision of Part 213 of Act 451 (Leaking Underground Storage Tank Regulations). The DEQ strongly encourage consultants, site owners, and others from the environmental community to participate alongside our staff in learning how to apply ITRC's science-based process and principles to more effectively manage LNAPL sites in Michigan. This training provides a forum for local, state, and federal government personnel to learn alongside their private sector colleagues. This 2-day ITRC LNAPL classroom training led by internationally recognized experts should enable you to:

- Develop and apply an LNAPL Conceptual Site Model (LCSM)
- Understand and assess LNAPL subsurface behavior
- Develop and justify LNAPL remedial objectives including maximum extent practicable considerations
- Select appropriate LNAPL remedial technologies and measure progress
- Use ITRC's science-based LNAPL guidance to efficiently move sites to closure

Interactive learning with classroom exercises and Q&A sessions will reinforce these course learning objectives. To learn more about this exciting training opportunity go to www.itrcWeb.org/crt or contact the **ITRC Training Program** at (402) 201-2419 or training@itrcWeb.org or contact the State of Michigan ITRC Point-of-Contact **Joe Rogers** at 517-373-9897 or rogersj5@michigan.gov.

OCTOBER 26, 2012

2012 MICHIGAN GREEN CHEMISTRY AND ENGINEERING CONFERENCE: DRIVING SUSTAINABLE MANUFACTURING, WAYNE STATE UNIVERSITY, DETROIT, MICHIGAN. The 2012 GreenUp Conference and 4th Annual Michigan Green Chemistry Governor's Awards Ceremony will take place in Detroit – a city fueled by innovation and ripe with opportunities for driving sustainable manufacturing through green chemistry and engineering. A revitalization of manufacturing is occurring nation-wide. Green chemistry and engineering is contributing to this revitalization by employing less toxic materials and processes in the manufacture and design of the products we use every day. For researchers, chemists, engineers, industry CEOs, students, educators, entrepreneurs, decision-makers, policymakers – anyone interested in Michigan's march toward smart, sustainable growth – this conference is the opportunity to hear from leading experts

and share innovative ideas on how we can best “green up” Michigan and drive sustainable manufacturing through green chemistry and engineering! An introductory workshop is being offered the afternoon before the conference. Updated event information is available on the Web at www.michigan.gov/greenup. Registration Information: **Environmental Assistance Center**, 800-662-9278, or e-mail at deq-assist@michigan.gov. Information Contact: **Jennifer Acevedo**, Office of Environmental Assistance, 517-335-3203 or e-mail at acevedoj@michigan.gov.
