Proposed Settlements of Contested Cases

WATER RESOURCES DIVISION

CHEBOYGAN WATERFRONT, LLC, PERMIT APPLICATION NUMBER 09-16-0034-P. As part of informal negotiations in the pending contested case hearing, Cheboygan Waterfront LLC has submitted revised plans for construction of a proposed motor coach resort community on property located northeast of Duncan and S Eastern Avenues, Benton Township, Cheboygan County (T38N, R1W, Section 28). The original application, (File No. 09-16-0034-P) was public noticed on January 7, 2010, and a public hearing was held on March 4, 2010. The application for permit was denied on May 13, 2010. Cheboygan Waterfront LLC contested the permit denial. The Department of Environmental Quality (DEQ) is proposing to issue a permit for the modified project as proposed by Cheboygan Waterfront LLC. The proposed modified plans, dated August 13, 2012, would reduce the wetland impact from 10,772 cubic yards of fill in 3.75 acres of wetland to approximately 3,100 cubic yards of fill within 1.07 acres of wetland for the purpose of constructing roads, lots, and utilities for a motor coach resort. To resolve a disagreement between the applicant and the DEQ regarding the location of the boundary of Environmental Area 05-09, an upland area of 1.68 acres will be removed from the area mapped by the DEQ as Environmental Area. The proposed modified plan would also provide for the construction of a boardwalk, 5 feet wide and 60 feet long across wetland and the placement of a wood chip path, 5 feet wide and 250 feet long, lakeward of the boardwalk within the Environmental Area. Significant changes between the original plan and the proposed modified plan include reduction in the number of lots from 103 to 98, relocation of the roads and lots, and relocation of the community center and associated parking to property located on the south side of Duncan Avenue. The applicant proposes mitigation that includes on-site...
preservation through the placement of a conservation easement on all remaining wetlands and Environmental Area, and off-site mitigation that includes the creation of 2.14 acres of forested wetland with an additional 0.95 acres of upland buffer to compensate for the lost wetland resources. (Click on link to view a copy of the settlement summary and site plan: [http://www.michigan.gov/documents/deq/wrd-cheboygan-waterfront-settlement-summary_404251_7.pdf](http://www.michigan.gov/documents/deq/wrd-cheboygan-waterfront-settlement-summary_404251_7.pdf)). A contested case hearing has not been scheduled before the Michigan Administrative Hearings System. The case is pending the outcome of the informal negotiations.
