general understanding of the hazardous waste and liquid industrial by-product generator requirements under Part 111, Hazardous Waste Management, and Part 121, Liquid Industrial By-product of the Michigan Natural Resources and Environmental Protection Act, Act 451 of 1994, as amended, and the rules promulgated thereunder. I recognize that this information is essential for me to evaluate the need for additional site specific compliance measures and training as part of a site-specific hazardous waste training program. I recognize that additional site-specific staff training is necessary for on-site personnel to properly perform their daily duties related to the generation and management of hazardous waste. I further recognize that the MDEQ training does not adequately cover hazardous waste tank or Subpart CC requirements, and that additional independent training is necessary for those topics.
