Dear Ms. Mariuzza:

Thank you for the report in support of mine permit condition E8 dated November 25, 2015, submitted to the Department of Environmental Quality (DEQ), Office of Oil, Gas, and Minerals (OOGM). This letter is to inform you OOGM staff has reviewed the report and agree with the conclusions that mining can safely progress beyond the 327.5 meter level. As Lundin moves forward with the development, please inform OOGM of any unanticipated hydrogeological or rock stability issues.

Thank you again for the notification. If you have questions, please feel free to contact me at the number listed below.

Sincerely,

Joe Maki
