Dear Mr. Donohue:

Subject: Approval of Revised Post Closure Plan (Revised PCP) for the Warner-Lambert Company, LLC, Former Manufacturing Facility, Holland, Michigan; MID 006 013 643

The Michigan Department of Environmental Quality (MDEQ), Office of Waste Management and Radiological Protection (OWMRP), has completed its review of the Revised PCP, submitted on February 10, 2015, for the Warner-Lambert Company, LLC, former manufacturing facility located in Holland, Michigan. The Revised PCP was reviewed in accordance with the requirements of Part 111, Hazardous Waste Management, and Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451). The Revised PCP modifies and replaces the Post Closure Plan previously approved by the MDEQ on December 21, 2009. The modifications to the Revised PCP are necessary to:

1. Reflect the implementation needs and post closure care activities associated with the final selected remedial actions for onsite and contiguous properties specified in the Final Remedial Action Plan/Corrective Measures Implementation Plan (Final RAP/CMIP) and approved by the MDEQ on June 20, 2014, pursuant to the Hazardous and Solid Waste Amendments of 1984 (42 USC 6901 *et seq.*); Parts 111 and 201 of Act 451; the Toxics Substances Control Act (15 USC 2601 *et seq.*); and associated regulations.
2. Update the financial assurance cost estimate for post closure care and corrective action activities to reflect new or completed activities specified in the Final RAP/CMIP.

No public comments were received during the public comment period that ran from February 27, 2015, to March 30, 2015. The OWMRP hereby approves the Revised PCP. This approval does not convey any rights regarding unknown environmental conditions or compliance with other environmental laws and regulations.
