**To:** Kolon, Sybil (DEQ)  
**Cc:** Farsad\_Fotouhi@pall.com  
**Subject:** Well Abandon letters  
**Attachments:** List.pdf; sample-abandon mw ltr.pdf

Hi Sybil: The attached letter will go out in the mail tomorrow morning, so I thought I would provide you with a copy in case anyone calls you. I used Merge Mail, as I did for the survey letters, so each letter is individualized. A separate letter is sent to the resident, if the owner does not reside at the referenced address. I have also attached the list of recipients.

Regards,

PALL CORPORATION  
Laurel Beyer, EHS Specialist

**Re:** 544 Allison Dr

Dear Property Owner:

I am writing on behalf of Gelman Sciences Inc. (d/b/a Pall Life Sciences ("PLS")) in connection with PLS' groundwater cleanup project. As you may know, in May, 2005, the Court supervising the cleanup issued an order establishing an area within the City of Ann Arbor where it is illegal to withdraw or otherwise use the groundwater. A copy of the Court's Order Prohibiting Groundwater Use (the "PZ Order") is attached. Recently, the Court approved an expansion of the "Prohibition Zone" as part of agreed upon modifications to the cleanup program. A figure showing the area covered by the expanded Prohibition Zone is also attached. The PZ Order now applies to the expanded Prohibition Zone. Details on these changes are available on the web site maintained by the MDEQ for the Gelman Sciences site ([www.michigan.gov/deqrrd](http://www.michigan.gov/deqrrd), scroll down to link to Gelman web site).

Your property is located within the expanded Prohibition Zone. Like virtually all of the properties in the Prohibition Zone, your property is supplied with City water drawn from a safe source. Because the Prohibition Zone is broad enough to include a significant buffer zone, the fact that your property is located within this zone does not mean that there is contaminated groundwater under your property. It does mean that use of wells on your property to withdraw groundwater is, with limited exceptions, prohibited.

PLS has in the past used the former drinking water well on your property as a monitoring well. Because this well is no longer needed for sampling, the MDEQ has determined that the well must be abandoned/plugged. PLS will arrange and pay for the cost of abandoning the well. **Please countersign this letter as indicated below and return the countersigned letter to PLS in the self-addressed stamped envelope provided to confirm that PLS has your permission to perform this necessary work on your property.**

In order to begin this process, please contact Ms. Laurel Beyer at PLS (734-913-6536). This will enable PLS to arrange the work with its contractors.

Y900

---

If you have any questions, please feel free to contact either PLS or the MDEQ:

Sybil Kolon  
MDEQ
