JACKSON DISTRICT OFFICE

Mr. Farsad Fotouhi, Corporate VP Environmental Engineering
Pall Corporation
600 South Wagner Road
Ann Arbor, Michigan, 48103

Dear Mr. Fotouhi:

SUBJECT: CSI-Conventionals Only
NPDES Permit No. MI0048453
Designated Name: Pall Life Sciences Inc

On March 20 and 28 and July 31, 2012, staff of the Department of Environmental Quality (DEQ), Water Resources Division (WRD), conducted inspections at the Pall Life Sciences facility, 600 South Wagner Road, Ann Arbor, Michigan. The purpose of the inspections were to evaluate the facility's compliance with Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), MCL 324.3101 *et seq.* and the Administrative Rules promulgated there under being 2006 AACRS R 323.2101 *et seq.*, as amended, and National Pollutant Discharge Elimination System (NPDES) Permit No. MI0048453

An initial letter with the preliminary results of the inspection was sent to you on April 3, 2012. It indicated that a follow up letter with the analytical results of our sampling effort would be sent to you. The purpose of this letter is to provide that information.

Please see the enclosed sampling report and analytical data sheets for the samples collected in March and July. Note that we returned in July because the March samples were not analyzed for 1,4 dioxane. No significant differences were found between the facility discharge monitoring reports and DEQ data. No further action is necessary.

Should you require further information, please contact me at 517-780-7921; surfusj@michigan.gov; or DEQ, WRD, Jackson District Office, 301 East Louis Glick Highway, Jackson, Michigan 49201-1556.

Sincerely,

Jeff Surfus
Environmental Quality Analyst
Water Resources Division
