Public Participation Process – Hazardous Waste Management Facility Operating License Major Modification for Wayne Disposal, Inc.

The Michigan Department of Environmental Quality (MDEQ), proposes to approve a modification to the landfill construction design for Waste Disposal, Inc. (WDI). WDI operates a hazardous waste landfill facility at 49350 North I-94 Service Drive, Belleville, Michigan.

The MDEQ is taking this action in response to an application, by WDI, to modify the hazardous waste management facility operating license. The MDEQ has thoroughly reviewed the application and determined the proposed modification improves the design of the landfill. The MDEQ is seeking public participation that includes public comment on this action. The public comment period is open for 60 days from June 14, 2018, to August 13, 2018. The purpose of public participation is to provide information about the action and obtain feedback on the proposed decision.

The MDEQ is making a decision on the request for modification. An approval allows WDI to modify the design of the landfill liner system. A denial would require the use of the already approved design specified in the existing license.

The process for public comments is as follows:

- On June 14, 2018, the WMRPD published the public notice stating that the public comment period is from June 14, 2018, to August 13, 2018.
- During the comment period, all comments can be sent to Ms. Christine Matlock, Project Manager, matlockc2@michigan.gov; or MDEQ, WMRPD, P.O. Box 30241, Lansing, Michigan 48909-7741.
- The comments submitted will be considered in making a final decision. All comments will be addressed at the end of the public comment period in the *Response to Comments* document(s). The *Response to Comments* document(s) will be available to the public when the final decision has been made.
- The MDEQ will use the public participation process to ensure the application and technical alternatives were reviewed completely.
 - If a public comment identifies an issue that was not addressed in the review process, the issue will be raised and reviewed with WDI.

If you have any questions or require accommodations for effective participation, please contact Ms. Christine Matlock, Project Manager, at 517-284-6577; matlockc2@michigan.gov; or MDEQ, WMRPD, P.O. Box 30241, Lansing, Michigan 48909-7741.
