Scoop that Poop!

Okay, we know it's not the most enjoyable task but you don't want your kids and grandkids to play in a poopy yard. You certainly don't want them to swim in a poopy lake.

Poop is pollution. Scoop or bag it. When pet waste is left behind it washes directly into the lake. No filters, no treatment.

Unlike some other "thankless" jobs, this one will put you in good favor with your family and neighbors.

Ready for a rainy day?

Tip of the Mitt Watershed Council

www.watershedcouncil.org

Be Stormwater Savvy

Don't let a good drop go bad!
