 Purpose: Bottled Water  
 Comments: I will be submitting additional information {email} for consideration in the site specific review.

**Total Annual Withdrawal (gallons): 78,840,000**

**DISCLAIMER:** The Water Withdrawal Assessment Tool is designed to estimate the likely impact of a proposed water withdrawal on nearby streams. It is not an indication of how much groundwater may be available for your use. The quantity and quality of groundwater varies greatly with depth and location. You should consult with a water resources professional or a local well driller about groundwater availability at your location.
