

Sample Drawing 10.

- Complete **Sections 10A, 10B, 12, 13, and 21** if applicable to your project. Provide **plan view** and **cross-section** site-specific drawings adequate for detailed review; include:
- Name of waterbody, property owner, neighboring property owner information, property boundaries, and distances to adjacent property lines from proposed dock.
 - Observed water elevation and date of observation (M/D/Y).
 - Datum used (IGLD 85 or NGVD 29 on Section 10 Waters).
 - Dimensions from fixed objects to property boundaries and the proposed pier, dock, or piles.
 - Existing conditions along the shoreline for project site and each adjacent parcel.
 - Dimension of existing structures for each adjacent parcel.
 - Material used for construction of pier, dock, and or piles.

Sample Drawing 11.

- Complete **Sections 10A, 10B, 10C, and 12** if applicable to your project. Provide **plan view** and **cross-section** site-specific drawings adequate for detailed review; include:
- Overall site plan showing existing lakes, streams, wetlands, floodplains, and other water features.
 - Name of waterbodies, property boundaries, and neighboring property owner information.
 - Dimensions of an existing or proposed house, dock, or other structures, and distance from the proposed sanding area and property boundaries.
 - The maximum and average fill dimensions (ft) in both plan and cross-section views. Calculate fill volume (cu yd) by multiplying average (depth) x (width) x (length) in feet and dividing by 27.
 - The observed water level, date of observation (M/D/Y) and datum, if used (NGVD 29 or local).
 - The extent of filter fabric, if used, and how the filter fabric will be grounded.
 - Soil erosion and sedimentation control measures.
 - Source of clean sand or pre-washed gravel.
