

- Complete **Sections 10I and 12**, and **Sections 10A, 10B, 13, and 21** if applicable to your project. Provide **plan view** and **cross-section** site-specific drawings adequate for detailed review; include:
- Overall site plan showing existing lakes, streams, wetlands, *floodplains*, and other water features.
  - Name of waterbodies, property boundaries, and neighboring property owner information.
  - The boardwalk or deck dimensions in feet (height, width, and length).
  - In cross-sectional view show the maximum and minimum height of boardwalk above existing ground and the supporting system (i.e. fill or pilings).
  - Distance from end of boardwalk to *shoreline* or ordinary high water mark.
  - The existing and proposed building dimensions and minimum and maximum distances of proposed cut and or fill from waterbodies, wetlands, and floodplain boundaries (ft).
  - The observed water elevation and date of observation (M/D/Y).
  - Datum (NGVD 29 or IGLD 85 on Section 10 Waters).
  - Soil erosion and sedimentation control measures.

- Complete **Section 10B** and **Sections 10A, 12, 13, and 21** if applicable to your project. Provide **plan view** and **cross-section** site-specific drawings adequate for detailed review; include:
- Overall site plan showing existing lakes, streams, wetlands, *floodplains*, and other water features.
  - Name of waterbodies, property boundaries, and neighboring property owner information.
  - The dredge spoils disposal area location in an upland area above the 100-year floodplain. If spoils will be disposed of off-site, attach a detailed location. Sediment sampling may be required.
  - The location and dimensions of existing or proposed *docks* or *piers*.
  - The maximum and average dredge dimensions (ft) in both plan and cross-section views. Calculate dredge volume (cu yd) by multiplying average (depth) x (width) x (length) in feet and dividing by 27.
  - The observed water elevation and date of observation (M/D/Y).
  - Datum (NGVD 29 or IGLD 85 on Section 10 Waters).
  - Soil erosion and sedimentation control measures.
