

Why This Health Care?

It Is The Help You Asked For!

Michigan's foster care youth voiced concerns about health care, and we listened!

You Said...

"Like private health insurance under a parent, foster youth should be eligible for Medicaid until our 26th birthday."

"Workers still need to make sure youths understand their rights before they leave care because right now we don't know we're eligible for Medicaid, how to get it, or what doctors and dentists accept it."
