

## Test Sites Reopening in Michigan

DIFS has been working with PSI on the reopening of their owned and operated test sites in Michigan, while providing as little disruption to candidates as possible. In order to protect the health and safety of examination candidates, PSI clients and employees, testing centers are testing at 50% capacity. If a site is open, a candidate can select that testing center when scheduling. [Available test dates and times.](#)

### Test Centers Reopened:

- May 9, Grand Rapids testing center
- May 18, Southfield (Lahser) testing center
- May 20, Gaylord testing center
- May 25, the Alpha Tech Institute in Dearborn began temporarily testing insurance candidates
- June 3, Marquette testing center
- June 4, Dearborn testing center
- June 9, the Holt testing center
- June 17, Southfield (Crossroads) testing center
