

Energy Efficiency & Conservation Block Grant

THE EECBG BASICS

1. What is the Energy Efficiency and Conservation Block Grant Program?

The [Energy Efficiency and Conservation Block Grant Program](#) (EECBG) provides grants to U.S. local governments, states, territories, and Indian tribes, to fund projects that reduce energy use and fossil fuel emissions, and that improve in energy efficiency.

The EECBG Program represents a Presidential priority to deploy the cheapest, cleanest, and fastest energy source energy efficiency. EECBG was authorized in Title V, Subtitle E of the Energy Independence and Security Act (EISA), signed into law on December 19, 2007. It is modeled after the [Community Development Block Grant Program](#) administered by the Department of Housing and Urban Development (HUD).

2. What is the purpose of the Program?

Section 542 of Title V, Subtitle E of EISA (PL 110-140) describes the Program purpose as the following:

- (b) PURPOSE - The purpose of the program shall be to assist eligible entities in implementing strategies -
1. to reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities in a manner that -
 - A. is environmentally sustainable; and
 - B. to the maximum extent practicable, maximizes benefits for local and regional communities;
 2. to reduce the total energy use of the eligible entities; and
 3. to improve energy efficiency in -
 - A. the transportation sector;
 - B. the building sector; and
 - C. other appropriate sectors.

Additional purposes of the EECBG Program are to spur economic growth and create and/or retain jobs under the [American Recovery and Reinvestment Act of 2009](#).

3. What are the Federal funding allocations and how will they be distributed?

Congress appropriated \$3.2 billion for the EECBG Program, most of which (nearly \$2.7 billion) will be distributed through formula grants. The balance includes approximately \$455 million for competitive grants, which will be awarded through a separate **Funding Opportunity Announcement (FOA)**.

Allocations to entities eligible for direct formula grants from the DOE are based on the following **approximate** funding amounts:

- Approx. \$1.8 billion will go to Formula Entitled Cities and Counties
- Approx. \$767 million will go to Non-entitlement Cities and Counties via State Programs
- Approx. \$54.8 million will go to Tribal Governments

MICHIGAN ALLOCATIONS

1. What are the State of Michigan funding allocations and how will they be distributed?

DOE has announced that Michigan's allocation under EECBG is \$76.6 million, with \$57.6 million going directly to 69 Michigan communities and tribal governments for local energy efficiency and conservation efforts. Communities must submit an application to DOE before they will receive their Recovery Act dollars. The application due date for cities, counties and tribal governments is June 25, 2009.

Allocations to entities eligible for grants from the State of Michigan are based on the following **approximate** funding amounts:

- 68%, approx. \$57.6 million, will go to Formula Entitled Cities and Counties
- 28%, approx. \$19.6 million, will go to Non-entitlement Cities and Counties
 - * Of this amount a minimum of 60%, approx. \$11.4 million will go directly to Michigan non-entitlement cities
- 2%, approx. \$1.25 million, will go to Tribal Governments
- 2%, approx. \$1.25 million, will be distributed through competitive grants

WHAT'S NEW: ENTITLEMENT COMMUNITIES

- **ATTENTION Entitlement County & City EECBG Applicants:** the application deadline for the Funding Opportunity Announcement DE-FOA-0000013 has been extended. The announcement will now remain open until 8:00 pm Eastern time on August 10, 2009. To access the full amendment follow the link below.

WHAT'S NEW: NON-ENTITLEMENT COMMUNITIES

- **The Michigan EECBG Non-entitlement Community Workshop Series** presented by the Bureau of Energy Systems (BES), a division of the Michigan Department of Energy, Labor & Economic Growth (DeLEG), in partnership with the MI Association of Counties, MI Municipal League, MI Township Association, Northeast MI Council of Governments, Northwest MI Council of Governments & Southeast MI Council of Governments. The workshops will be conducted in four locations across the state and are primarily for non-entitlement cities, townships and counties to discuss the Energy Efficiency and Conservation Block Grant Program (EECBG) state competitive grants program.
