

**OH Part 309. Cadmium
Compared With
29 C.F.R. 1910.1027 Cadmium and 29 C.F.R. 1926.1127 Cadmium**

As of June 2015

Summary: The significant differences between OH Part 309. Cadmium and 29 C.F.R. 1910.1027 Cadmium are in:

- Employee notification of monitoring results.

The comparisons show only those provisions where MIOSHA rules are different than OSHA or where MIOSHA rules are not included in 29 C.F.R.

****means there is a comparable OSHA rule to this paragraph

MIOSHA	OSHA
<p>R 325.51856 Employee notification of monitoring results. Rule 6. (1) Not later than 15 working days for general industry and agricultural operations and not later than 5 working days for the construction industry, after an employer receives the results of any exposure monitoring that is performed pursuant to the provisions of these rules, an employer shall notify each affected employee individually in writing, or by posting the results, in an appropriate location that is accessible to all affected employees. (2)****</p>	<p>1910.1027 Cadmium (d) (5) (i) The employer must, within 15 working days after the receipt of the results of any monitoring performed under this section, notify each affected employee of these results either individually in writing or by posting the results in an appropriate location that is accessible to employees.</p> <p>Equivalent</p>
