Arthur E. Ellis, Director

INFORMATION MEMORANDUM NO. 8

DATE: January 11, 1995

TO: County Grant Administrators
County Representatives

FROM: Gaylord H. Yund, Acting Executive Director
Survey and Remonumentation Commission

SUBJECT: Survey & Remonumentation Computerized Corner Index System

As you may recall, on November 23, 1993 this office forwarded to you a memo and related information from J.A. (Al) Manas concerning the Survey and Remonumentation Computerized Corner Index System. This system was developed for your utilization in recording and maintaining your corner data file and for your future reporting to this office of corner data on a computer disk (memo enclosed).

To date, we have not specifically required nor requested that this corner data information be reported to this office to be entered into our statewide corner data file, which we are required by statute to build and maintain. Please consider this memorandum as our official request for your submission of a computer disk which includes all the corner index information for all corners monumented under the Survey and Remonumentation grants of 1993 and 1994.

There will be no further disbursement of payments on the 1995 grant year, other than the 30 percent start-up advance upon execution of the contract, until this office has received a computer disk which has all the corner index data for all corners that you have monumented under the 1993 and 1994 Survey and Remonumentation program.

If you have any questions, or we can be of any assistance, please contact Al Manas at (517) 373-0488.
