R 281.322 Purpose; intent; scope.

Rule 2. (1) The commission, on its own motion, in order to implement the intent of Act No. 231 of the Public Acts of 1970, being §281.761 et seq. of the Michigan Compiled Laws, and in the absence of the local zoning to protect the Au Sable river, a designated natural river, promulgates these zoning rules for the following purposes:

(a) To promote the public health, safety, and general welfare, to prevent economic and ecological damage due to misuse, unwise development patterns, overcrowding, and overuse within the natural river district, and to preserve the values of the natural river district for the benefit of present and future generations.

(b) To protect the free-flowing condition, fish, aquatic and wildlife resources, water quality, scenic and aesthetic qualities, and historical and recreational values of the Au Sable river and adjoining land.

(c) To prevent flood damage due to interference with the natural floodplain characteristics by excluding developments which are vulnerable to flood damage and

which may reduce the capacity of the floodway of the river to withstand flooding conditions.

(d) To provide for uses that complement the natural characteristics of the natural river system.

(e) To protect individuals from investing funds in structures proposed for location on lands unsuited for such development because of high groundwater, erosion, or vulnerability to flood damage.

(f) To achieve the goals and objectives of the Au Sable river natural river plan.

(2) It is the general intent of these rules to define terms used and to regulate and restrict lot coverage and use, population distribution and density, and the size and location of all structures by the delineation of permitted uses and development standards so as to promote the purposes identified in this rule. It is further intended to provide for the administration and enforcement of these rules and to provide penalties for their violation.

(3) It is not the intent of these rules to revoke, annul, cancel, or in any way impair or interfere with existing provisions of law, ordinances, or any rules, regulations, or premises or with any private restrictions placed upon property by covenant or deed. However, where provisions of law are less restrictive than the provisions of Act No. 231 of the Public Acts of 1970, being §281.761 et seq. of the Michigan Compiled Laws, and the rules promulgated thereunder, the provisions of Act No. 231 of the Public Acts of 1970, and the rules promulgated thereunder shall apply.

History: 1990 MR 7, Eff. Aug. 16, 1990.

Rule 3. (1) All of the following rules of construction apply to the text of these rules:

(a) The particular shall control over the general.

(b) In the case of any difference of meaning or implication between the text of these rules and any caption or illustration, the text shall control.

(c) The word "shall" is always mandatory and not discretionary. The word "may" is permissive.

(d) Words used in the present tense shall include the future. Words used in the singular number shall include the plural and the plural the singular, unless the context clearly indicates the contrary.

(e) A "building" or "structure" includes any part thereof.

(f) The phrase "used for" includes "arranged for," "designed for," "intended for," "maintained for," or "occupied for."

(g) The word "person" includes an individual, a corporation, a partnership, an incorporated association, or any other similar entity.

(h) Unless the context clearly indicates the contrary, where a regulation involves 2 or more items, conditions, provisions, or events connected by the conjunction "and," "or," or "either . . . or," the conjunction shall be interpreted as follows:

(i) "And" indicates that all of the connected items, conditions, or provisions shall apply.

(ii) "Or" indicates that the connected items, conditions, provisions, or events may apply singularly or in any combination.

(iii) "Either . . . or" indicates that the connected items, conditions, provisions, or events shall apply singularly, but not in combination.

Terms not defined in these rules shall have the meanings customarily assigned to them.

(2) In any case in which the provisions of these rules are declared by the courts to be unconstitutional or invalid, such ruling shall not affect the validity of the remaining provisions of these rules and to this end the provisions of these rules are declared to be severable.

R 281.324 Lot size and area; subdivision of land; home occupations; natural vegetation strip; signs; docks.

Rule 4. (1) Unless otherwise provided for within these rules, any lot or parcel of property created after the effective date of these rules, or amendments thereto, shall have a minimum area of 50,000 square feet and a minimum average width of 200 feet throughout the length of the lot or parcel on the Au Sable river main stream, south branch and north branch, and a minimum average width of 150 feet on all other designated tributaries. The average lot width shall be based on the average of the combined widths of the front and rear lot lines.

(2) A lot that exists on the effective date of this rule, or amendment thereto, shall not be subdivided or reduced in dimension or area below the minimum requirements of these rules. Lots that are created after the effective date of this rule shall meet the minimum requirements of these rules, except as provided in subrules (3) and (4) of this rule.

(3) Proposed lots which have preliminary plat approval pursuant to the provisions of Act No. 288 of the Public Acts of 1967, as amended, being §560.101 et seq. of the Michigan Compiled Laws, but which do not meet the dimensional requirements of these rules on their effective date, shall, on final plat approval, be issued a permit subject to the requirements provided in R 281.329.

(4) Lots of record which are created before the effective date of these rules, or amendments thereto, and which do not possess sufficient land area or lot width may be used for the purposes described within these rules, subject to the requirements provided for in R 281.329.

(5) Home occupations shall conform to all of the following requirements:

(a) Only members of the immediate family who reside on the premises, plus 1 additional person, may engage in home occupations.

(b) The use of the dwelling unit, or related structure, for the home occupation shall be clearly incidental and subordinate to its use for residential purposes. The home occupation shall not occupy more than 20% of the aboveground floor area of the dwelling unit or 300 square feet, whichever is greater. This requirement shall apply whether the home occupation is contained wholly within the dwelling unit or utilizes a garage.

(c) There shall be no change in the outside appearance of the dwelling or any other visible evidence of the conduct of the home occupation in the dwelling; however, there may be 1 sign which is not more than 2 square feet in area, is nonilluminated, and is

mounted against the wall of the dwelling. The home occupation shall be conducted and operated entirely within the confines of the dwelling.

(d) The home occupation shall be operated in its entirety within the principal dwelling unit and attached or detached garage.

(e) Only products produced on the premises by a home occupation may be sold. Only services provided on the premises by a home occupation may be sold. This does not preclude the storage of products not produced on the premises if such storage does not exceed the floor area requirement specified in subdivision (b) of this subrule or contain explosive or highly flammable material.

(f) Traffic shall not be generated by a home occupation in a volume that is more than 20% of the average volume normally expected for the type of dwelling unit to which the home occupation is associated. Average volumes shall be based on current trip generation guidelines as issued in the 1987 edition of the institute of transportation engineers' publication entitled "Trip Generation, fourth edition," which are herein adopted by reference. The guidelines are available for review or purchase from the Land and Water Management Division of the Michigan Department of Natural Resources, P.O. Box 30028, Lansing, Michigan, 48909, or may be purchased from the Institute of Transportation Engineers, 525 School Street SW, Suite 410, Washington, D.C., 20024-2729, at a cost of \$125.00.

(g) Equipment or a process shall not be used in a home occupation if it creates noise, vibration, glare, fumes, odors, or electrical interference off the premises which is detectable to the normal senses and the occupation is conducted in a single-family dwelling unit or its associated garage or outside the dwelling unit if the occupation is conducted in other than a single-family dwelling unit or its associated garage. Equipment or a process shall not be used if it creates visual or audible interference in any radio or television receivers off the premises or causes fluctuation in line voltage off the premises.

(6) Within the natural river district, a 75-foot minimum restrictive cutting belt shall be maintained on each side of the main stream, south branch and north branch of the Au Sable river, and a 50-foot minimum restrictive cutting belt shall be maintained on each side of all other designated tributaries. Trees and shrubs may be pruned for a filtered view of the river, but clear cutting in the natural vegetation strip is prohibited. The natural vegetation strip is also subject to all of the following provisions:

(a) Dead, diseased, unsafe, or fallen trees and noxious plants and shrubs, including poison ivy and poison sumac may be removed.

(b) The selected removal or trimming of trees for timber harvest, access or woodlot improvements, landscaping, or public utility lines to service private single-family dwellings and other permitted uses is permitted upon approval of the zoning administrator.

(c) Camping is not permitted in the natural vegetation strip.

(7) In addition to the signage standards specified in R 281.327, all signs shall be in compliance with all of the following provisions:

(a) Be stationary with no moving parts.

- (b) Be constructed of natural materials and earth tone colors to blend with the surrounding environment.
- (c) Not be attached to trees or shrubs unless the sign is located outside the natural vegetation strip.
- (d) Not be illuminated unless it can be demonstrated that illumination is necessary for the purposes of traffic safety or other such purpose, in which case the zoning administrator may approve an illuminated sign.

(8) Private boat docks shall be in conformance with all of the following requirements:

- (a) Docks shall not be more than 4 feet in width and 12 feet in length, with not more than 4 feet of the dock extending over the edge of the river.
- (b) Docks shall be designed, constructed, and maintained to blend with natural surroundings. The use of natural, native materials is encouraged.
- (c) Unless provided for within these rules, only 1 dock shall be constructed per lot.
- (d) Where regulations permit multiple docks, such docks may be placed side by side.

R 281.326 Zoning permits; site plans; certificates of zoning compliance.

Rule 6. (1) A building or other structure shall not be erected, moved, added to, or structurally altered, and a land use shall not be commenced, without a zoning permit as specified by these rules and issued by the zoning administrator. Permits shall not be required for exempt activities as specified in R 281.327(1). Plans submitted in application of a zoning permit shall contain the necessary information for determining compliance with these rules.

(2) Concurrent with applying for a zoning permit, an applicant shall submit a site plan of the proposed development. Such site plan shall include the entire area proposed for

development. The zoning administrator, in the case of a principal use application, or the zoning review board, in the case of a special use application, shall have the authority to require adjustments in the site plan as a condition for approval if such adjustments are deemed necessary to ensure that the proposed development meets all standards contained in these rules and does not excessively disturb the natural river environment or the general character of the area. Except as otherwise waived by the zoning administrator, in the case of a principal use application, or the zoning review board, in the case of a special use application, a site plan shall show and include all of the following, either existing or proposed:

- (a) Site plan drawn to scale, with the scale indicated
- (b) Property dimensions.
- (c) The size, shape, use, and location of existing and proposed buildings or improvements, including distances to adjacent property boundaries and the river's edge.
- (d) Existing vegetation, including the location and type.
- (e) Adjacent streets and highways.
- (f) Parking areas.
- (g) Bluff heights.
- (h) Entrances to public streets.
- (i) A description of the building design, including proposed construction materials.
- (j) Drainage facilities.
- (k) The location and description of the method to dispose of sanitary wastes.
- (l) Proposed landscaping.
- (m) The location of footpaths.
- (n) Signs proposed, including the size, location, and material.
- (o) North arrow.
- (p) Date of drawing.
- (q) Detailed site location map.
- (r) Any additional information deemed by the zoning administrator or zoning review board to be necessary to carry out the administrator's or board's duties. Examples of such information include the following:
 - (i) Soil types
 - (ii) Topography
 - (iii) Building elevations.
 - (iv) Site photographs
 - (v) Anticipated traffic volumes.
 - (vi) Traffic circulation patterns
 - (vii) Other pertinent site information.
- (3) A building, structure, lot, or use for which a zoning permit has been issued shall not be occupied or used until the zoning administrator has, after final inspection, issued a certificate of zoning compliance indicating compliance with all of the provisions of these rules. However, the issuance of a certificate of compliance shall not be construed as waiving any provision of these rules. Buildings accessory to dwellings shall not require separate certificates of zoning compliance, but may be included in the certificate of zoning compliance for the dwelling when shown on the site plan and when completed at the same time as such dwellings. A record of all certificates issued shall be kept on file in the office of the zoning administrator. Certificates of zoning compliance are for the

purposes of these rules and shall not be interpreted as substitutes for certificates of occupancy required by local building codes.

(iv) The operation of licensed motor vehicles on dedicated public roads or private roads designed to provide access to a permitted use.

(v) The off-road operation of emergency and public utility maintenance vehicles. The off-road operation of other motorized vehicles is prohibited in the natural vegetation strip as described in R 281.324(6).

(vi) Private footpaths that are constructed by the landowner of natural materials to facilitate access to permitted uses.

(vii) Residential identification signs subject to the provisions of R 281.324(7) and provided that both of the following provisions are complied with:

Such uses may result in intensities of development and use higher than to be anticipated under the exempt and principal uses. To ensure that such uses do not contravene the goals and objectives of the Au Sable river natural river plan and these rules, and to ensure compatibility with adjacent uses, such uses shall be referred to as special uses and shall be subject to the review and approval of the zoning review board. R 281.329 Variances and variance hearings.

Rule 9. (1) A dimensional variance from any standard established in these rules may be granted by the zoning review board, after a public hearing, or in certain instances by the zoning administrator, to allow a modification from such standard establishing area, yard, height, floor space, frontage, setback, or similar numerical restriction, but only after substantive evidence establishes that there are practical difficulties in carrying out the strict letter of these rules. A variance shall be permitted only when it is in harmony with the general purposes and intent of these rules.

(2) The zoning review board or zoning administrator shall consider all of the following factors in determining if there are practical difficulties in carrying out the strict letter of these rules as specified in subrule (1) of this rule:

(a) How substantial the variance is in relation to the zoning requirements.

(b) Whether a substantial change will be affected in the character of the area or a substantial detriment created for adjoining properties.

(c) Whether the difficulty can be overcome by some feasible method other than a variance.

(d) Whether, in view of the manner in which the difficulty arose, and considering all of the factors specified in subdivisions (a) to (c) of this subrule, the interests of justice will be served by allowing the variance.

(e) Whether the plight of the landowner is due to circumstances unique to his or her property not created by the landowner

(f) Whether the variance may result in a material adverse effect on the environment.

(3) For the purposes of these rules, the required hearing and review of a variance request by the zoning review board shall be waived for certain minor dimensional variances of principal uses, including legal nonconforming uses. Such variances shall be handled by the zoning administrator, who shall consider the provisions of subrule (2) of this rule in making a determination. The zoning administrator shall prepare a written

finding of fact detailing the reasons for approval or denial of the minor variance request. Minor variances include any of the following:

(a) Setbacks for uses on lawful lots which are not more than 25% of the normal dimensional requirements. Such uses shall include principal or accessory buildings or structures and any portion thereof, including additions, porches, and steps.

(b) Setbacks for uses on lawful nonconforming lots, including lots within subdivisions, which are not more than 25% of the normal dimensional requirements. Such uses shall include principal or accessory buildings or structures and any portion thereof, including additions, porches, and steps. Conditions may be imposed on an applicant before granting a variance. Such conditions shall be in writing and signed by the applicant before the applicant receives a variance.

(4) A land use variance is a land or building use in contravention of any of the use requirements of these rules. The zoning review board may, after a public hearing, in its sole discretion, grant a variance upon a finding of unnecessary hardship, which may be found upon substantial evidence being submitted that all of the following factors are found to exist:

(a) That property cannot be used in a manner consistent with existing zoning.

(b) That the hardship results from the application of these rules to the applicant's property.

(c) That the hardship of which the applicant complains is suffered by his or her property directly and is not shared by others.

(d) That the hardship is not the result of the applicant's own actions.

(e) That the hardship is peculiar to the applicant's own property.

(5) In determining whether reasonable use may be made of the property as zoned, a reasonable economic return may be a factor which could be considered, but only if the applicant is in compliance with the provisions of subrules (1) to (4) of this rule. Whether any weight shall be given to the economic return factor shall be dependent on a determination that the owner has been deprived of all beneficial use of his or her property under existing zoning.

(6) The zoning review board shall, after finding that unnecessary hardship exists, also find that, based on adequate evidence, the proposed use meets all of the following conditions:

(a) The use will be harmonious with and in accordance with the general objectives of the Au Sable river natural river plan.

(b) The use will be designed, constructed, operated, and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and that such use will not change the essential character of the general vicinity.

(c) The use will not be hazardous or disturbing to existing or future neighboring uses.

(d) The use will be adequately served by existing essential public facilities and services, such as highways, police and fire protection, drainage structures, refuse disposal, and

sanitation facilities, or that the persons or agencies responsible for the establishment of the proposed use shall be able to adequately provide any such service.

(e) The use will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the local community.

(f) The use will not involve uses, activities, processes, materials and equipment, and conditions of operation that will be detrimental to any persons, property, the general welfare, or the environmental quality of the district because of the excessive production of traffic, noise, smoke, fumes, glare or odors or require the outdoor storage of raw materials or discarded materials produced in the use processes.

(g) The use will be consistent with the intent and purposes of these rules.

(h) The use or the structures to be used therefor will not cause an overcrowding of the land or an undue concentration of population resulting in degradation to the river and district.

(i) The use plot area is sufficient, appropriate, and adequate for the use and the reasonable anticipated operation and expansion thereof.

(7) Upon receipt of an application for a variance, the zoning review board shall conduct a hearing on the request, except as provided for in subrule (3) of this rule. The hearing and notice procedure shall follow that established for special use applications by the provisions of R 281.328(2)(c). A decision shall be made within 30 days after the hearing to approve or deny the variance request. The zoning review board shall keep complete and detailed records of all its proceedings, which shall include the minutes of its meetings, its findings, and actions taken on each matter heard by it, including the final order. The order shall include the legal description of the property involved. Reasons for the decision shall be stated in writing. The board shall record the vote of each member on each question. If a member is absent or fails to vote, the board shall indicate such fact. All records shall be open for public inspection. The concurring vote of a majority of the members of the zoning review board shall be necessary to effect a dimensional variance in these rules, except that a concurring vote of 2/3 of the members of the board of appeals shall be necessary to grant a land use variance permitted in these rules.

(8) The zoning review board shall not issue a land use variance when the district allows the use as a special use.

(9) The effect of any variance shall be to create a nonconforming land use or structure which shall then be subject to the terms of R 281.330, which regulates continued use.

History: 1990 MR 7, Eff. Aug. 16, 1990.

R 281.330 Nonconforming uses, lots, and structures.

Rule 10 (1) It is recognized that there exists, within the natural river district, lots, structures, and uses of land and structures which were lawful before these rules were promulgated or amended which would be prohibited, regulated, or restricted under the terms of these rules or future amendments. It is the intent of these rules to permit legal nonconforming uses, structures, or lots to continue until they are brought into conformity and, in certain instances, to permit limited expansion of certain legal nonconforming uses and structures.

(2) Any nonconforming (substandard) lot shall be in compliance with the minimum requirements of the dimensional requirements of these rules, except as such substandard nonconforming lot may be used pursuant to the provisions of R 281.329.

(3) Where, at the effective date of the promulgation or amendment of these rules, a lawful use of land exists that is made unlawful under the terms of these rules as promulgated or amended, such use may be continued if it remains otherwise lawful, subject to all of the following provisions:

(a) Such nonconforming use shall not be enlarged, increased, or extended to occupy a greater area of land than was occupied at the effective date of promulgation or amendment of these rules.

(b) Such nonconforming use shall not be moved, in whole or in part, to any other portion of the lot or parcel occupied by such use at the effective date of promulgation or amendment of these rules, unless such move would result in a greater degree of conformity with these rules.

(c) If such nonconforming use of land ceases for any reason for a period of 12 months, any subsequent use of such land shall conform to the requirements specified by these rules.

(4) Where a lawful structure exists at the effective date of promulgation or amendment of these rules that is made unlawful under the terms of these rules as promulgated or amended, such structure may be continued if it remains lawful, subject to all of the following provisions:

(a) Such structure shall not be enlarged or altered in a way which increases its nonconformity; however, when a single-family dwelling is classified as nonconforming, alterations, repairs, and additions, including accessory buildings, may be erected if the gross floor area of all such alterations, repairs, and additions, including accessory buildings, is not more than 50% of the gross floor area of the nonconforming dwelling, cumulative from the date of nonconformance to the date of the request if any enlargement to a lawful nonconforming structure, to the extent possible, is in compliance with all setback and other building requirements. Expansion of a lawful, nonconforming single-family dwelling shall be handled as a variance pursuant to the provisions of R 281.329.

(b) If such nonconforming structure is destroyed by any means to an extent of more than 60% of its replacement cost, it shall not be reconstructed for its original nonconforming use.

(c) Such nonconforming structure shall not be moved, in whole or in part, to any other portion of the lot or parcel occupied by such structure at the effective date of promulgation or amendment of these rules, unless the move would result in a greater degree of conformity with these rules.
