- \$100.00 Lease fee for each year X the number of watercraft being used, see formula below:

$$\frac{\text{Number of Years}}{\text{Number of Watercraft}} \times \$100.00 = \$ \text{Total Amount}$$

(i.e., if more than one individual is operating under the same lease, **\$100.00 is due for each person/operation covered by that lease**). If lessee has more than one watercraft, but only one is operating at any given time, then the fee is \$100.00.
