3. A person may collect reptiles and amphibians or their eggs for research studies or other special use under a permit issued by the director's designated fisheries representative. The permit shall be valid only for the species, number, manner and time specified on the permit.
4. A person may take certain species of reptiles and amphibians for personal use. See PERSONAL USE.
5. The taking of reptiles and amphibians for commercial purposes is prohibited.
6. Reptiles may be taken only by hand, trap, seines up to 12 x 4 feet overall dimension, hand net, or hook-and-line.
7. Amphibians may be taken by hand, hook-and-line, hand net or trap where not otherwise prohibited by law. In addition, frogs may be speared. Frogs shall not be speared with the aid of an artificial light.
8. Traps used or possessed in areas frequented by reptiles must have a plate or tag attached bearing the name and address of the user in legible English.
9. It is illegal to possess or transport in the field, dressed or processed reptiles or amphibians that cannot be measured or identified.
10. A person shall immediately release to the wild any reptile or amphibian that is taken during a closed season, is under the legal size, or is otherwise protected.
11. Reptile eggs may not be disturbed or removed from the wild except as authorized under a permit for scientific research, conservation, or educational purposes by the director.
12. Reptiles and amphibians shall not be taken with a firearm (including spring, air, or gas), bow and arrow, or crossbow.

PERSONAL USE

1. A fishing license is required to take reptiles and amphibians for personal use.
2. Traps used for the taking of turtles shall be limited to no more than 3 traps, shall be constructed and set in a manner to allow turtles to surface and breathe, and shall be constructed of mesh at least 1 inch wide at the narrowest measurement.
3. All reptiles and amphibians taken for personal use shall not be bought, sold or offered for sale.
4. Snapping turtle carapace length: to obtain the carapace (top of shell) length, use a flexible tape to measure from the nuchal scute (the scute directly behind the turtle’s head) to the base of the notch where the two most posterior scutes meet.
5. The following table lists the regulations that apply to the taking of reptiles and amphibians for personal use:
