Disclaimer

The ratings within this publication are not those of the authors, Michigan State University Extension, the Michigan Forestry and Park Association, Inc., or the Michigan Nursery and Landscape Association. The data provided have been furnished by professionals within the "green industry" who have experience using the trees. In a listing like this, some species ratings may be disputed by some people. Readers should use caution when selecting species and are advised to review various tables within this publication, as well as other literature, before making their final species selection.

Disclaimer

The ratings within this publication are not those of the authors, Michigan State University Extension, the Michigan Forestry and Park Association, Inc., or the Michigan Nursery and Landscape Association. The data provided have been furnished by professionals within the "green industry" who have experience using the trees. In a listing like this, some species ratings may be disputed by some people. Readers should use caution when selecting species and are advised to review various tables within this publication, as well as other literature, before making their final species selection.
