

MICHIGAME JR. BINGO EDITION

Nature is everywhere! You don't need to look further than your own backyard, neighborhood, or state park to discover the amazing wonders of the natural world. Try this fun, hands-on bingo game with your children as you discover and explore outdoors.

How to play

Materials needed

- Printed bingo card(s)
- Pen or pencil

This game is designed to be done anywhere outdoors, including your own backyard!

It's a great opportunity to explore Michigan state parks and forests.

Pick your park, pack a lunch, and get ready to explore Michigan's most amazing natural places.

Ages 2 to 7, two or more players

- Find all the items in a row, column or diagonally corner to corner.
- There is an option for older children, in which you will need to print all 3 bingo cards. The 3 bingo cards are arranged in different orders. This provides an option for children to challenge each other and race to complete their cards.
- Keep in mind that bingo participants should be seeing and reporting items on their playing card, not collecting items. Practice Leave No Trace principles to leave nature as you found it.
