

## Survey Report for Platte River, 2014

<b>Waterbody</b>	Platte River
<b>Year</b>	2014
<b>Sites</b>	Loon Lake, Lower Platte River, Upper Platte River
<b>Survey period</b>	April 1 to October 31
<b>Survey design</b>	Access-access, roving - roving
<b>Clerk time</b>	Full time
<b>Survey purpose</b>	Characterize general effort and catch aspects of the fishery

### Notes

Survey followed first an access-access design and then a roving-access design. Funding was provided through Fisheries Division. One clerk worked full time to collect angling survey data. Two weekend days and two week days were randomly selected for sampling during each week of the survey season. No holidays were sampled. Clerks followed a randomized count and interview schedule. One of two shifts was selected each sample day. The Platte River was divided into 3 sections: Loon Lake, Lower Platte River, Upper Platte River. One count of anglers was made per day. Survey period for both counts and interviews was April 1 to October 31. Months were estimated separately.
