

Table.—Targeted harvest & catch rates per hour, per excursion, and number of fish harvested or released by species for charter boats departing from West Grand Traverse Bay (100-106), Lake Michigan, 2015. Targeted harvest & catch of any salmon or trout is based on total salmonine effort; other species are trip target specific. Catch Rates = harvested (kept) fish + released fish. Bottom lines show total fishing effort (angler hours, anglers, and charter excursions).
