

Nature at School Water World

Make a watershed at home!

Use some simple materials at home to create your own edible watershed model!

Materials:

- Tube frosting (colors blue, green and brown)
- Graham crackers
- Rice treat
- Optional: little Lego people or items

Instructions:

1. Use icing to cement two graham crackers (or more!) together to make your base.
2. Using your rice treat, mold hills, mountains and valleys on your graham crackers.
3. Now, use your blue icing to add rivers, lakes, etc.
4. Using the green frosting add in forests, grasses and fields.
5. Using the brown frosting, add in any soil or roads.
6. Use your Lego parts to add towns or people.
7. Take a picture, and describe all your features.
8. Now eat it!
