

GRETCHEN WHITMER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF
ENVIRONMENT, GREAT LAKES, AND ENERGY
LANSING

LIESL EICHLER CLARK
DIRECTOR

VIA E-MAIL

TO: Senate Appropriations Subcommittee on Natural Resources and Environmental
Quality Members
House Appropriations Subcommittee on Natural Resources and Environmental
Quality Members
Chris Kolb, Director, State Budget Office

FROM: Amy Epkey, Senior Deputy Director

DATE: February 6, 2020

SUBJECT: Report on the Refined Petroleum Product Cleanup Program

Refined Petroleum Funds have provided significant funding over the years to address hundreds of leaking underground storage tanks each year. The funding allows the Department of Environment, Great Lakes, and Energy (EGLE) to audit reports from private parties, evaluate and investigate properties, and conduct corrective actions that protect public health and the environment. In 2008 Michigan had 9,183 open leaking underground storage tank releases. As of October 1, 2019, there were 8,145 open releases, a reduction in the State's backlog of over 1,000 in 10 years. Refined Petroleum Funds have also assisted brownfield sites across the state by allowing EGLE to perform corrective actions at sites in conjunction with redevelopment efforts by municipalities or developers.

In accordance with Section 306(2) of Part 2 of 2019 PA 57, attached is EGLE's report on the Refined Petroleum Product Cleanup Program, including:

Attachment A – State-funded sites with planned work to be funded by Refined Petroleum Funds in fiscal year 2020 (264 sites). Additionally, it is expected that hundreds of private party sites will require state assistance for audits, review, or oversight actions.

Attachment B – State-funded and privately-funded sites with corrective action conducted, supported by Refined Petroleum Funds in fiscal year 2019 (558 sites).

Attachment C – Sites with closures supported by Refined Petroleum Funds in fiscal year 2019 (166 releases at 121 sites).

Attachment D – Map of State-funded sites with corrective actions conducted in fiscal year 2019.

Report on the Refined Petroleum Product Cleanup Program
