If you want to create a link to an asset…. you can put an asset ID in the Content Edit/Add Link URL path and select Asset radio button and Vignette will set up the full path to the image when you update the content.

Link Fields −

Link Type:	○ None ◉ Internal ○ External (New Window)
Link (URL): Content ○ Asset ◉ [?]	302051
Link Text:	Link to an ASSET

Author & Published Date

Author:

After I click ADD… it looks like this

Link Fields −

Link Type:	○ None ◉ Internal ○ External (New Window)
Link (URL): Content ○ Asset ○ [?]	/documents/som/Look_and_Feel_Standards_302051_7.pdf edit
Link Text:	Link to an ASSET

The full path has been inserted that matches the asset record in the database. So if you have the asset ID, this is a shortcut.
