## Readying Michigan to Make Good Energy Decisions

In response to Governor Snyder's 2013 address on Energy and the Environment, MPSC Chairman John Quackenbush and Michigan Energy Office Director Steve Bakkal have been endeavoring to gather information to help ready Michigan to make good energy decisions. Seven public forums were held around the state, and 114 questions were posted on the website for feedback. Chairman Quackenbush and Director Bakkal are in the process of reviewing and analyzing all of the submissions and have developed the following draft schedule of target dates to release four reports for public comments. The four reports will correspond to the four areas of questions that were outlined on the website: Renewable Energy, Energy Efficiency, Electric Choice and Additional Areas. Should any of these dates be revised, this document will be updated to reflect the latest revisions.

<b>Renewable Energy:</b>	<b>Draft report release for comments – 9/20/13</b> <b>Due date for public comments – 10/16/13</b> <b>Release final report – 11/4/13</b>
<b>Energy Efficiency:</b>	<b>Draft report release for comments – 10/22/13</b> <b>Due date for public comments – 11/6/13</b> <b>Release final report – 11/26/13</b>
<b>Electric Choice:</b>	<b>Draft report release for comments – 10/15/13</b> <b>Due date for public comments – 11/1/13</b> <b>Release final report – 11/20/13</b>
<b>Additional Areas:</b>	<b>Draft report release for comments – 10/1/13</b> <b>Due date for public comments – 10/22/13</b> <b>Release final report – 11/15/13</b>
