

Michigan Department of Health and Human Services (MDHHS) Blood Lead Level Test Results for Selected Flint Zip Codes, Genesee County, and the State of Michigan Summary as of February 12, 2016

Executive Summary

This report is generated by MDHHS to track Blood Lead Level test results in Flint, Michigan.

- Counts on this report include both capillary and venous blood tests.
- As of February 8, 2016, this report will include test results for four additional zip codes (48509, 48519, 48529, and 48532, referred to as “Additional Impacted Locations”) because some addresses in these areas are serviced by water from Flint River.
- People who have had multiple tests are counted only once per year for the annual counts. People counted in 2015 who were tested again after 1/1/2016 are counted in both years.
- Between 10/1/2015 and 2/12/2016, an additional 9,294 people were tested in Flint zip codes 48501-48507 and an additional 1,000 people were tested in the Additional Impacted Locations.
- Continued testing efforts by Genesee County Health Department, MDHHS, and local medical personnel have identified 78 children under age 18 in Flint zip codes 48501-48507 and 1 child under age 18 in an Additional Impacted Location with blood lead levels greater than or equal to 5 mcg/dL (micrograms lead per deciliter of blood) since 10/1/2015.
- Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, MDHHS recognizes that the full community of Flint must be the focus of the public health response.
- 2.2 percent of Flint children younger than 6 years old tested between 10/1/2015 and 2/12/2016 had blood lead levels greater than or equal to 5 mcg/dL.

Incidence of elevated blood lead ≥ 5 mcg/dL among children < 6 years of age by quarter, Michigan, 2010-2016

* Data for Quarter 4 of 2015 and Quarter 1 of 2016 are incomplete and subject to change.

**Additional Impacted Locations includes Flint zip codes 48509, 48519, 48529, and 48532.

Table 1. Incidence of elevated blood lead levels (≥ 5 mcg/dL) among children less than 6 years of age, 2010 – 2016

		Michigan	Genesee County	Flint 48501-48507	Additional Impacted Locations**
1/1/2010 to 12/31/2010	Total tested for lead	156,014	7,053	3,630	779
