Records Retention and Disposal Schedule for Michigan Township Clerks

General Schedule #25
Approved June 17, 2008
GENERAL SCHEDULE #25 - Township Clerks

This Retention and Disposal Schedule supersedes the Clerks section of General Schedule #10 for Michigan Townships that was approved in July 1997.

This Retention and Disposal Schedule covers records that are commonly found in 
township clerk offices. The records that are described on the attached pages are 
deemed necessary (1) for the continued effective operation of Michigan government, (2) 
to constitute an adequate and proper recording of its activities, and (3) to protect the 
legal rights of the government of the State of Michigan and of the people. We, the 
undersigned, believe that this schedule meets the administrative, legal, fiscal and 
archival requirements of the State of Michigan.

Public Records

The Michigan Freedom of Information Act (FOIA) (MCL 15.231-15.246) defines public records as recorded information “prepared, owned, used, in the possession of, or retained by a public body in the performance of an official function, from the time it is created.”

Retention and Disposal Schedules

Michigan law (MCL 399.5 and 750.491) requires that all public records be listed on an approved Retention and Disposal Schedule that identifies the minimum amount of time that records must be kept to satisfy administrative, legal, fiscal and historical needs. Local situations may require retention beyond the periods listed, and nothing prevents an office from retaining records longer than the specified period of time. Schedules also identify when records may be destroyed, and when certain records can be sent to the Archives of Michigan for permanent preservation. Records cannot be destroyed unless their disposition is authorized by an approved Retention and Disposal Schedule. All schedules are approved by the Records Management Services, the Archives of Michigan and the State Administrative Board. There are two types of schedules that government agencies may use:

- A “general schedule” will cover records that are common to a particular type of government agency, such as a township clerk’s office. General schedules may not address every single record that a particular office may have in its possession. General schedules do not mandate that any of the records listed on the schedule be created. However, if they are created in the normal course of business, the schedule establishes a minimum retention period for them.

- Any record that is not covered by a general schedule must be listed on an “agency-specific schedule” that will address records that are unique to a particular government agency. Agency-specific schedules always supersede general schedules. Agency-specific schedules only address the records of the agency named on the schedule, and may not be used by another agency.

This schedule supersedes the Clerks section of General Schedule #10 for Michigan Townships that was approved in July 1997. Elections records are covered separately on General Schedule #23—Elections Records that was approved in 2007.

Unofficial Documents

General Schedule #1 addresses the retention of “nonrecord” materials. These documents are broadly defined as drafts, duplicates, convenience copies, publications and other materials that do not document agency activities. These materials can be disposed of when they have served their intended purpose. Government agencies need to identify the “office of record” when multiple offices possess copies of the same record. The “office of record” is responsible for
following the retention period that is specified, duplicates do not need to be retained. A more comprehensive definition of “nonrecords” can be found in the approved schedule (available online at [http://www.michigan.gov/documents/hal_mhc_rms_GS1_local_110758_7.pdf](http://www.michigan.gov/documents/hal_mhc_rms_GS1_local_110758_7.pdf)).

**E-mail**

E-mail messages are subject to the same record retention laws as other government records. E-mail messages are public records if they are created or received as part of a public official or employee’s duties. There is no single retention period for e-mail. Each message must be evaluated based on its content to determine whether it is a record subject to a specific record series and retention period (or whether it is transitory correspondence or a non-record). E-mail that needs to be retained may be stored electronically or as a paper printout. Additional guidance and free online training is available from online at [https://dmbinternet.state.mi.us/DMB/EmailRM/story.html](https://dmbinternet.state.mi.us/DMB/EmailRM/story.html).

**Record Maintenance**

Records can exist in a wide variety of formats, including paper, maps, photographs, microfilm, digital images, e-mail messages, databases, etc. The retention periods listed on this general schedule do not specify the format that the record may exist in, because each government agency that adopts this schedule may choose to retain its records using different recording media. Government agencies are responsible for ensuring that all of their records (regardless of format) are properly retained and remain accessible during this entire retention period. All records need to be stored in a secure and stable environment that will protect them from tampering, damage and degradation. Electronic records are dependent upon specific hardware and software to be accessed and used. It is important to understand that the original technology that is used to create electronic records will eventually become obsolete. As a result, government agencies should work with their information technology staff to develop preservation plans for retaining electronic records with long-term (more than 10 years) retention requirements. Various laws (including the Records Reproduction Act, [MCL 24.401-24.406](http://www.legislature.mi.gov/legislature)) identify acceptable formats for retaining public records; agencies are responsible for understanding and complying with these laws. Records that contain sensitive or confidential information should be destroyed in a manner that ensures they cannot be reconstructed.

**Suspending Destruction**

Government agencies must immediately cease the destruction of all relevant records (even if destruction is authorized by an approved Retention and Disposal Schedule) if they receive a FOIA request, if they believe that an investigation or litigation is imminent, or if they are notified that an audit, investigation or litigation has commenced. If relevant records exist in electronic formats (such as e-mail, digital images, word processed documents, databases, backup tapes, etc.), the agency may need to notify its information technology staff. Failure to cease the destruction of relevant records could result in penalties.
HAL Can Help!

The State of Michigan Records Management Services is available to assist government agencies with their questions about record retention and acceptable recording media. Agencies may contact the Records Management Services at (517) 335-9132. Additional information is also available from the Records Management Services’ website http://www.michigan.gov/recordsmanagement/, including records management manuals, general schedules, e-mail retention guidelines, microfilming standards and digital imaging standards, etc.

General Retention Schedule #25
Township Clerks

Definitions of Retention Codes

Retention Codes are used to establish how long records are retained by the creating agency before they are destroyed (or transferred to the Archives of Michigan for permanent retention). In addition to the retention code, a period of time, years or months may be used in the calculation. The retention code plus (+) the period of time results in the earliest potential destruction date.

ACT = Active
An active code is usually assigned to records that are activity or project-related, especially if there is no specific end-date for the activity or project. The records are retained while the activity or project is “active” (ACT)—until the activity or project is finished or ended. If there is also a specific retention period that should apply, then the specific retention period is added on as an additional stated number of years (+5) The number usually stands for years, but it may mean months, if specified). For example, if the retention code for a project record is ACT+5, then the record should be retained for five years after the project ends, whenever that occurs.

CR = Creation
A creation code is assigned to records when a definitive retention period can be assigned and there are no conditions that must be met. The retention period is usually based on a calendar year. For example, correspondence has a retention code of CR+2. This means the correspondence must be kept for two years after it is created or received.

FY = Fiscal Year
A fiscal year code is similar to a CR code. The code is assigned to records when a definitive retention period can be assigned, but the retention period is based on a fiscal year instead of a calendar year. This retention code is usually assigned to accounting records and their supporting documentation. For example, The Annual Local Unit Fiscal Report (F-65) has a retention code of FY+7. This means it must be retained for seven years after the fiscal year for which it is filed.

EVT = Event
Event codes are assigned to records when a retention period is based on a future action or condition occurring--an event. For example, this schedule gives a township meeting agenda a retention code of EVT, and the EVT = approval of the minutes of the meeting to which the agenda refers. This means the agenda should be retained until the meeting minutes are approved.

EXP = Expiration
An expiration code is typically assigned to contracts, grants or other types of agreements that must be retained until an expiration date or other legal condition has been met. For instance, contracts may be held EXP+7. This means contracts are kept for seven years after they expire.

SUP = Superseded
A superseded code is typically assigned to records that are updated or revised at various times during the record’s lifetime, and the previous versions are not necessary once they have been “superseded” (replaced) by the new versions. For example, this schedule gives administrative
policies a retention code of SUP. This means that **when a new version of a policy is adopted or approved, the previous version may be destroyed.**

**PERM = Permanent**
These records are not authorized for destruction at any point in time and must be permanently retained in the custody of the township. *(Note that all record types not assigned a destruction date (end of retention period) by a retention schedule have a “permanent” retention period unless or until a retention schedule assigns a destruction date (end of retention period) to them. However, some record types, such as minutes and ordinances, are specifically assigned a “permanent” retention period in this schedule because it is important to emphasize that they must be retained permanently.)*

Subject files contain records that support administrative analysis, program and project planning, procedure development, and programmatic activities. These record types include periodic activity reports (narrative and statistical), special reports, topical correspondence (including electronic mail), research materials, project planning notes or organizational charts. Subject files are generally organized alphabetically by topic and may be further organized into annual files. Subject files do NOT include files related to specific individual program activities of the clerk’s office, such as election, voter registration, accounting or meeting records, or payroll and human resources files, which are listed elsewhere in this schedule and other schedules. ACT = while subject file is of interest for ongoing administration. Some subject files may have historical value and should be preserved permanently.

Records are considered transitory (temporary) correspondence if they document official responsibilities or activities, but have no documentary or evidential value after the activity is completed (such as a question answered or a meeting attended). Transitory messages do not set policy, establish guidelines or procedures, certify a transaction, or become a receipt. Examples of transitory correspondence include letters of transmittal that do not add information to the transmitted materials, routine requests for information that require no administrative action, policy decision, special compilation or research. This type of record also includes invitations to work-related events or notifications of upcoming meetings.

103 Information/Freedom of Information Act Requests  CR+1

These records document requests for information or public records, and may include requests for information or public records, correspondence related to requests, copies of released documents and billing records. Any written request for a public record is a Freedom of Information Act (FOIA) request, and a written request for information may be a FOIA request and should be handled as one. Each township board is required by the FOIA to designate a FOIA Coordinator. This is not automatically the township clerk, but it may be the clerk, another board member, or another official or employee. Copies of FOIA requests and other records related to FOIA requests may be filed with the FOIA Coordinator’s records or maintained in a central administrative file.

104 Planners/Calendars  CR+2

These records include electronic or manual planners and calendars that schedule or track an individual official or staff member’s work-related meetings, assignments and tasks. Individual officials and employees are usually responsible for retaining their planners/calendars for the retention period.

105 Staff and Project Meeting Records  CR+2

These records document staff meetings and meetings with other project participants. They may include meeting minutes, agendas and distribution materials. Meeting records may also be retained in subject files, if they relate to a specific project. These records do NOT include records of meetings of the township board or other official boards, commissions or committees.

106 Grant Records  ACT

These are records used to administer state, federal or private grants the township applies for and receives. These records include applications, budgets, worksheets, adjustments, plans, award letters, committee records, staffing sheets with account numbers, grant evaluation/monitoring reports, audits, periodic progress reports, or rules and regulations. ACT = until the grant is closed out, plus any additional time that is required by the granting

PERM = Permanent   ACT = Active   SUP = Superseded   CR = Creation Date   FY = Fiscal Year   EVT = Event   EXP = Expiration

806 Accounts Receivable Records (Bills by Township)  
FY+7

These records document payments owed to and billed by the township for services, such as facility use, event/activity fees, utilities, sewer, fire/rescue, permits, or licenses. They include invoices or other billing documents, support documents, agreements, and ledgers.

807 Accounts Payable Records (Bills to Township)  
FY+7

These records document township obligations and payments for goods and services, including but not limited to utility, phone (land and cell), Internet, pager and other service providers. These records may be used to generate bills that are distributed to each township department (such as construction code enforcement, zoning enforcement, township-owned fire department, etc.). They include bills, purchase orders, receipts, statements, packing slips, warrant reports, vouchers, requisitions, invoices and travel expenses.

808 Investment Records  
FY+7

All investments are under the control of the township treasurer, subject to the township board’s investment policy, but some of these records are also used by the clerk’s office. Regardless of where the records are filed, the same retention period applies. These records include statements from investment accounts that identify the date and amount of each transaction, the maturity and balance of the account. They include cash flow and reconciliation statements that summarize the beginning and ending balance of the account and all transactions dates and amounts.

809 Periodic Financial Reports  
ACT

These records document the status of budgetary activity on each account to enable the township board to monitor and amend as necessary. Regardless of where the records are filed, the same retention period applies. ACT = until audit is completed.

810 Audits—Final Report  
PERM

Audit reports are prepared annually or biennially (as required by law for the individual township) by independent accounting firms.
