Key:

County/State = Ratio of county value divided by state value

Rank = Rank among all 83 counties from worst (1) to best (83)

Score = County comparison with state average, either better than or equal to state average (0) or worse than state average (1)

County Contribution = County total divided by state total. State average obtained by 100% divided by 83 counties, so each county should contribute 1.2%. Counties can either contribute more than state average (1) or less than or equal to state average (0).
