

## THANK YOU

The Bureau of Fire Services would like to thank you for participating in the 2018 Consumer and Low Impact Fireworks Season. We hope you had a profitable season.

As a reminder, Sales Reports are required to be submitted no later than 20 days after the end of each month that you have an active Certificate or Low Impact Registration. This requirement begins when you register for Low Impact sales or are issued a certificate for Consumer fireworks sales. Fireworks being an established program, the Department of Licensing and Regulatory Affairs and the Department of Treasury will be evaluating the timeliness and accuracy of reporting fireworks sales and payment of fire safety fees.

To report fireworks sales appropriately you must do so using current year Certificate and Registration numbers.

The system allows you to report both, a Low Impact registration and a Consumer certificate, facility sales on one record for the same address. It isn't necessary to submit 2 records if they are both at the same location in your name.

For businesses concentrating their sales during a specific time associated with July 4 holiday period, you have an option of cancelling your Registration and or Certificate once you close for the remainder of the fireworks year. You simply need to submit the Cancellation request, at no cost to you, and be current on your Sales Reports and Fire Safety Fee payments. The Bureau of Fire Services will cancel your registration or certificate for you.

Any additional information needed, including Fireworks Sales Reporting, is available on the Fireworks Program page. We have updated our Fireworks Program page at [www.michigan.gov/bfs](http://www.michigan.gov/bfs), click on Fireworks, to assist you with all processes. Tutorials are available there with step-by-step instructions. If you need to contact us, call 517-373-7441 or email [fireworks@michigan.gov](mailto:fireworks@michigan.gov).

When contacting us about any issues please have available prior to contact or include in emails:

- Consumer Certificate number (2018-CTxxxxx or 2018-CPxxxxx) or Low Impact Registration number (2018-LTxxxxx or 2018-LPxxxxx)
- Address of Facility
- Owner and or Business name
