Medical Marijuana Facilities Licensing Act Regulatory Assessments Announced for Fiscal Year 2020

The amount of the regulatory assessment fee for licensed medical marijuana facilities is determined annually as required by Section 602 of the Medical Marijuana Facilities Licensing Act and must be paid by those persons approved for licensure by the Medical Regulatory Agency (MRA) prior to issuance or renewal of each state operating license.

The following changes have been made to the regulatory assessment structure for Fiscal Year 2020:

- Regulatory assessment fees for each license type have been scaled to create a more equitable system wherein each license type is paying a more representative share of their regulatory costs.
- A tiered structure has been created within each license type to further balance the costs between licensees based upon market share. In most cases, this will create a lower regulatory assessment fee for the initial year of operation. Market share for each license type will be determined based upon the following:
 - Growers (Class A, B, C) and Processors – gross weight transferred
 - Provisioning Centers – gross retail sales
 - Secure Transporters – net weight transported
- Each new license issued will pay the new license regulatory assessment fee listed below.
- Each renewal license will pay the renewal regulatory assessment listed below based upon their market share during the previous fiscal year.
- To expedite the renewal process, all new licenses issued to existing licensees will be prorated so that the expiration date for all licenses held by a licensee will have the same expiration date as the licensee's initial state operating license.

This advisory bulletin does not constitute legal advice and is subject to change. Licensees are encouraged to seek legal counsel to ensure their operations comply with the Medical Marijuana Facilities Licensing Act and associated Administrative Rules.

ADVISORY BULLETIN

August 8, 2019
