Fire Fighter One & Two Hybrid Course 2021 - 2022

The Elk Rapids Fire Department will host a Fire Fighter One and Two Course this winter. This will be a hybrid course, meaning that students will experience much of the course materials on-line while all practical skill exercises will be in person at the E R F D. Students who successfully complete the course will be tested to Mi. OFFT standards and when successful will receive a Fire Fighter Two Certification.

The first night of class is Tuesday, Nov. 9 at 7 pm. at the Elk Rapids Fire Station. Testing is scheduled for Saturday May 7, 2022. A full schedule will be available the first night of class.

Typically, students will be expected on a weekly basis to have completed that week's assignment by Monday evening, there will be an online review session on Tuesday evenings, and most Saturdays or Sundays will be in person at E R F D for practical skill evolutions. Students will need basic computer skills and a reliable internet source.

Each student will be furnished with a textbook and on-line access.

This hybrid course style releases the student from some of the in-person learning time but does require that the student be self-disciplined enough to complete studies and homework on time.

Class size will be limited to 7. Due to the small size of the class and the fact that no Michigan training funds are available the cost will be about \$500.00 per student and we will invoice your department after a few weeks of class.

Students must be in good standing with their fire dept. Full approved turn out gear is expected for all practical skill exercises and no facial hair is permitted.

The SMOKE class I D number is: 2022-1-05-A25E-0023

Students should purchase the Jones & Barlett 4th edition and the Premier Navigate 2 Advantage Access. This can be purchased at the Mi Fireman's Assoc. (810 635 9513) or other locations.

Please call (231 264 5161) or email (erfire@elkrapids.info) or with any questions.
