

ITT Technical Institute Closing

ITT Technical Institute has discontinued operations nationwide. In Michigan this has affected students actively enrolled in five (5) ITT Technical Institute branch campuses located in Dearborn, Wyoming, Troy, Canton & Swartz Creek. All programs for those students that participated in-class ended on September 4, 2016 and have been completed. All students have been informed that additional terms will not be offered.

Due to the current situation, important information provided by ITT Technical Institute for those students who need answers in moving forward can be found at <http://itt-tech.info>. Students may also submit any questions to StudentQuestions@itt-tech.edu.

In the near future, to comply with Section 14a of the Michigan State Board of Education Act, 1964 PA 287, MCL 388.1014a, Michigan student records of all grades will be turned over to the Department of Licensing and Regulatory Affairs, Corporations, Securities & Commercial Licensing Bureau, Schools and Licensing Section. When they become available, you may fill out a transcript request form which can be found at www.michigan.gov/pss, under Forms & Publications. The fee is \$25.00, made payable to "State of Michigan".

The US Department of Education (DOE) has been communicating with students and has information on their website. This information can be found at <http://www.ed.gov>. Below are some links found on DOE's website that contain information specific to the ITT closing.
