

Kentwood Save

Good morning Kymberly,

I just wanted to let you know we had another save on Monday 12/23. Fire Inspector Quick and I installed smokes and a CO in a family's home the beginning of November. Late Monday night the alarms starting going off and they called 911. One of our engines and Battalion Chief responded and found a malfunctioning furnace. They had high levels of CO in the home.

I just wanted to tell you thanks for all the work you have done getting these alarms and handling this program. That makes 3 saves from state alarms in the last few months. Hope you had a great Christmas and have a Happy New Year! Thanks again!
