

CONTINUING EDUCATION REQUIREMENTS FOR MICHIGAN NURSING HOME ADMINISTRATORS

Authority: Public Act 368 of 1978, as amended

This form is for information only.

This brochure has been developed to explain the requirements and the license renewal process to Nursing Home Administrators licensed to practice in Michigan.

REQUIREMENTS FOR RENEWAL

TRAINING ON IDENTIFYING VICTIMS OF HUMAN TRAFFICKING:

The Michigan Public Health Code and board administrative rules require Nursing Home Administrators to complete training in identifying victims of human trafficking that meets the requirements in Administrative Rule 339.14002. Please note this is a one-time training that is separate from continuing education. Beginning with the October 2018 renewal cycle, and all renewal cycles thereafter, licensees must have completed training in identifying victims of human trafficking. Beginning March 17, 2021 an applicant for initial licensure as a Nursing Home Administrator must complete training on identifying victims of human trafficking as a requirement for licensure.

CONTINUING EDUCATION:

The Michigan Public Health Code and board administrative rules require Nursing Home Administrators to complete continuing education as follows:

- An applicant for license renewal who has been licensed for the 2-year period immediately preceding the expiration date of the license must have earned 36 hours of board-approved continuing education that were earned within the 2 years immediately preceding the application for renewal. A licensee is not required to complete continuing education for his or her first license renewal.
- Subjects qualifying for continuing education credit include the following: (a) Behavioral science; (b) Economics/finance; (c) Geriatrics/gerontology; (d) Health care; (e) Management; (f) Marketing; (g) Pharmacology and toxicology; (h) Labor relations; (i) Law; (j) Communications; and (k) Any other related subjects contributing to the professional competency of a licensee. The responsibility for substantiation of such subjects rests solely with the licensee.
- An applicant for license renewal must complete in each renewal period 2 board-approved continuing education hours in pain and symptom management. The continuing education in pain and symptom management is part of, and not in addition to the required 36 hours of department-approved continuing education.

The following is considered department-approved continuing education:

- One continuing education credit hour shall be earned for each 50 to 60 minutes of participation in a continuation program that has been approved by the board in compliance with standards in R 339.14027.
- An academic semester credit hour earned from an accredited college or university shall equal 15 continuing education hours. (If audited, a licensee must submit an official transcript documenting successful completion of the course.)
- An academic quarter credit hour earned from an accredited college or university shall equal 10 continuing education hours. (If audited, a licensee must submit an official transcript documenting successful completion of the course.)
- A maximum of 18 continuing education hours may be earned by successfully completing approved distance learning programs. Distance learning means approved continuing education courses, programs, or activities where the instructor and participant are apart and not able to immediately interact. Instruction takes place through media including, but not limited to, Internet courses, books, journal articles, manuals, CDs, DVDs, audio and video tapes, and home study courses. (If audited, a licensee must submit documentation verifying successful completion of the program.)
- Not less than 18 continuing education hours must be earned by successfully completing approved live courses or programs that provide for direct interaction between faculty and participants, including but not limited to, lectures, symposia, workshops and teleconferences, such as interactive classrooms and computer conferencing.
- Continuing education programs offered by the National Association of Long Term Care Administrator Board (NAB) are considered approved.

RENEWAL PROCEDURES

Nursing Home Administrator licenses expire every 2 years on October 31. Submission of an application for renewal shall constitute the applicant's certification that the continuing education requirements have been met.

DO NOT SEND THE CONTINUING EDUCATION DOCUMENTS to our office unless requested. The Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, will conduct an audit at the conclusion of each renewal period. Nursing Home Administrators chosen for audit through an automated random selection process will be contacted by letter to submit documented evidence of the completion of continuing education activities.

DO NOT RENEW YOUR LICENSE IF THE CONTINUING EDUCATION REQUIREMENTS HAVE NOT BEEN MET. A Nursing Home Administrator who is unable to provide evidence of completion of the continuing education requirements, when requested, is in violation of the Michigan Public Health Code and subject to one or more of the following possible license sanctions: reprimand, probation, denial, suspension, revocation, limitation, restitution, and fine.

Licenses can be renewed approximately 60 days prior to the expiration date of the license after completion of continuing education requirements by submitting the renewal application with the renewal fee. Licenses can be renewed during the sixty-day grace period after completion of continuing education requirements; a \$20 late fee will be applied in addition to the renewal payment.

If the license is not renewed prior to the end of the 60-day grace period, the license will lapse and reflect the October 31 expiration date. The applicant will then have to apply for relicensure in order to resume practice in Michigan. "Relicensure" means the granting of a license to a person whose license has lapsed for failure to renew the license within 60 days after the expiration date.

CONTINUING EDUCATION WAIVERS

The Michigan Public Health Code authorizes the Board of Nursing Home Administrators to waive the continuing education requirements for a license renewal applicant if, upon written application, the Board finds the failure of the licensee to attend the required board-approved courses or programs was due to the licensee's disability, military service, absence from the continental United States, or a circumstance beyond the control of the licensee which the Board considers good and sufficient.

A written request for a waiver must be submitted by mail to the Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, Attn: Board of Nursing Home Administrators, PO Box 30670, Lansing, MI 48909 or by email to BPLHelp@michigan.gov and must include supporting documentation for the reason for the waiver. A waiver cannot be requested after an application for renewal has been submitted. The Board cannot prospectively waive continuing education requirements.
