1. How do I verify my Michigan MD license to another state?

Complete the Certified License Verification Request form that can be found out http://www.michigan.gov/lara/0,4601,7-154-72600_72603_27529_27541--,00.html, along with the required $15.00 fee made payable to the State of Michigan.

The verification process generally takes 20-30 business days from the time the request is received by the Department. The request should be mailed to:

Department of Licensing and Regulatory Affairs
Bureau of Professional Licensing
Licensing Division
P.O. Box 30670
Lansing, MI 48909

2. Do I need to complete continuing education?

Yes. You can find the CE requirements at www.michigan.gov/bpl under Licensing Information and CE Requirements. The Board does not maintain a record of continuing education earned. You are required to maintain your own records and keep documentation on hand for a minimum of 4 years.

3. Do I have to send in proof of completing the continuing education (CE) requirements with my renewal application?

An applicant for renewal is not required to submit proof of completion of their CE hours. However, an applicant for renewal shall retain documentation of meeting the requirements for a period of 3 years from the date of applying for license renewal. If selected for audit, a licensee is required to submit copies of their documentation confirming the completion of the CE requirements.

4. How long are the MD licenses issued for?

An initial license is valid until the next license expiration date of the profession unless the license is issued less than 120 days prior to the expiration date and then it will carry to the following year. After your first renewal for a permanent license, your license will be valid for 3 years. Educational limited licenses are renewed annually and may not be renewed for more than 5 years.
5. When can I renew my license? How do I renew my license?

Licensees can begin to renew their licenses approximately 60-90 days prior to the expiration date of their current license.

Licensees will be mailed a renewal notification to their address on record approximately 60-90 days prior to the expiration date of the license. Remember to notify the Department, in writing, of any address change. It’s a licensee’s responsibility to renew his or her license on time. Failure to receive the renewal notification, or to notify the Department of an address change, does not exempt a licensee from renewing their license on time.

Licensees are required to renew their license(s) by using the online renewal system at [www.michigan.gov/elicense](http://www.michigan.gov/elicense) using a debit or credit card containing a MasterCard, Visa or Discover logo or by electronic check.

6. Can I submit the renewal application for my controlled substance license before submitting the renewal of my professional license?

Regardless of when you submit your renewal, the professional license will have to be renewed first. If we receive the controlled substance renewal but not the professional license renewal, neither license will be renewed. The professional license renewal must be submitted before the process can begin.

7. Can I change my licensure status from an educational limited to a fully licensed MD during renewal time?

Licensees cannot upgrade licensure during the renewal period. You must file a new application for a full license and meet current requirements set forth by the rules and regulations.

8. How can I change my name or address?

Name changes must be submitted in writing by downloading the Data Change/Duplicate License Request Form. Address changes can be submitted online at [www.michigan.gov/elicense](http://www.michigan.gov/elicense) or in writing by downloading the Data Change/Duplicate License Request Form. Mail it to the Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, Licensing Division, PO Box 30670, Lansing, MI 48909.

New licenses are not automatically issued for name and/or address changes. To receive a license with your new name and/or address, you must submit $10.00 per license with your request. Duplicate licenses can be paid for online at [www.michigan.gov/elicense](http://www.michigan.gov/elicense). The Data Change/Duplicate License Form can be faxed to 517-335-2044 if a new license is not being requested.
9. **What happens if my license or registration expires?**

If your license or registration is not renewed within 60 days after your expiration date, your license or registration will lapse. The expiration date will reflect the original expiration date -- it will not include the grace period. For example: If your license expires January 31, you have until April 1 to pay your renewal fee. If you do not pay by April 1, your license is considered lapsed as of January 31. You will need to check with the agencies that provide reimbursement for your services to see if they honor the grace period.

When your license or registration lapses, you can no longer practice your profession nor can you identify yourself as a licensed or registered individual. Practicing without a valid license or registration is a felony under the Public Health Code and can result in legal proceedings as well as disciplinary actions.

It is your responsibility to make sure your license or registration is current and valid. We send renewal information to the last address on file approximately 60-90 days prior to the expiration date. If we have an incorrect address, you are still responsible for making sure your license has been renewed in a timely manner.

10. **How long will you keep my licensure application on file?**

For most professions, your application and fee are valid for two years. If you fail to meet the licensure/registration requirements within that time period, your file and fees are no longer valid and will be retained for one additional year after fee date expires.

11. **If I'm licensed in more than one state do you need verification from all states I have ever held a license in?**

Yes, we need verification from all states where you have ever held a license (active or inactive). This is to ensure you have not had any disciplinary actions or suspensions and to verify that your current license is in good standing.

12. **There have been changes to the Public Health Code and Administrative Rules that require licensees and individuals seeking licensure to complete human trafficking training. When does this take effect?**

Administrative Rule R 338.2413 requires an individual licensed or seeking licensure to complete training to identify victims of human trafficking. This is a one-time training that is separate from continuing education (CE). Licensees who renewed in 2017 must complete training by renewal in 2020; renewals completed in 2018 must complete training by renewal in 2021; and renewals for 2019 by 2022. Beginning December 6, 2021, completion of training is a requirement for initial license issuance.

The department may select and audit a sample of individuals and request documentation of proof of completion of training.
13. **How can I meet the requirements for the completion of training in identifying victims of human trafficking?**

The one-time human trafficking training may be done through: a teleconference or a webinar, online presentation, live presentation, or printed or electronic media. Refer to the Administrative Rules for more information.

The training must cover all of the following: understanding the types and venues of human trafficking in the United States; identifying victims of human trafficking in health care settings; identifying the warnings signs of human trafficking in health care settings for adults and minors; and identifying resources for reporting the suspected victims of human trafficking.

The training may be acquired through any of the following:

1) A nationally recognized or state recognized, health related organization.
2) By or in conjunction with a state or federal agency.
3) An educational program that has been approved by the board for initial licensure, or by a college or university.
4) Reading an article related to the identification of victims of human trafficking as indicated above, and is published in a peer review journal, health care journal, or professional or scientific journal.

If audited, licensees shall provide acceptable proof of completion.
