

NFA Course

Best Practices in Community Risk Reduction

(Train the Trainer)

Presented by: Larry Morabito, NFA Instructor

This is a Train the Trainer offering allowing those who are instructors certified to certified Instructor I or higher to be able to teach this course.

You must be a MFFTC/FFTD certified instructor I or higher in order to attend this course.

This two-day course demonstrates to students nationally recognized principles that, when used appropriately, can lead to community risk-reduction programs that can measure success in local communities. This course will give students the opportunity to explore programs from communities across the United States that have been showcased at Vision 20/20 symposiums. These programs demonstrate what nationally recognized organizations identify as examples of “best practices” in community risk reduction.

At the end of the course, students will be evaluated through a 25-question multiple-choice examination. A final grade will be provided to each student. The minimum score needed to pass is 70.

September 12-13, 2020
(Rescheduled from May)

8 am – 5 pm each day

Springfield Twp. Fire Department
10280 Rattalee Lake Rd, Davisburg, MI 48350
