

R 400.8125(9) requires the following:

If a staff person has resided outside of this state as an adult within the 10 years immediately preceding the date of hire, a criminal history check equivalent to Michigan department of state police internet criminal history access tool (ICHAT) and the department of human services central registry clearance shall be requested for all states of previous residence during those 10 years. The out-of-state requests and any responses shall be kept on file at the center.

For more information on how to comply with this rule, go to the Technical Assistance and Consultation Manual at www.michigan.gov/michidcare-ta.

How to Obtain Clearances from Other States

Criminal history checks and abuse and neglect registry clearances can be obtained from other states as outlined in the chart.

Note: Some states require that the clearances be requested by the individual and some states allow the clearances to be obtained by the individual or the child care center. The forms and instructions provided by the state will indicate who can submit the request. Also, some of the child abuse and neglect registry forms reference foster and adoption agencies or the Adam Walsh Child Protection and Safety Act; child care centers use the same form for child abuse and neglect clearances for employment purposes.
