Regarding Docket Number 15-AP-03

Dear State Boundary Commission Members,

I am writing you on behalf of more than 100 residences that will be impacted by 15-AP-03. These residences, including myself, are neighboring properties that border or are within close walking distance of the parcels listed under 15-AP-03. We have all collectively opposed the docket and signed the attached petition with over 100 signatures. We find this annexation to be inappropriate and intrusive to the residences of our neighborhood and it offers no positive benefits. It will cause a fracture in the residential zoning plan that is supported by our community.

The developers that are trying to force the annexation have not reviewed or taken in account the impact on the boarding residences and neighborhood. Overall, their development presentation grossly misrepresents what they will be bringing to the community and are selfish in their efforts. The negative impact far exceeds any possible positive impact that they "think" they are bringing to the community. We are also disappointed in their plan of purchasing residential zoned township properties for their invasive development that will spilt the neighborhood block half.

Here are some, but not all, of the reasons that we are opposing Docket Number 15-AP-03:

- Lapeer City opposes the annexation.
- Lapeer Township opposes the annexation.
- The Negative visual impact of having commercial looking property in our front yards.
- Damage to the property values in the neighborhood.
- The heavy increase of traffic on Baldwin Road where people, walk, bike ride, and enjoy the community.
- The increase of commercial traffic in the middle of the residential neighborhood.
- The increased damage that will occur to Baldwin and surrounding roads from the traffic increase.
- Additional rain/water run-off onto adjacent properties from the large parking lots

Dept. of Licensing & Regulatory Affairs
FILED
MAR 14 2016 '15 AP 03
STATE BOUNDARY COMMISSION

- Loss of the wooded neighborhood where wild life nourishes.
- Possible added traffic light to the Baldwin & Alice intersection.
- Increase in noise and light pollution to surrounding residential neighbors.
- Increase in emergency vehicles and family traffic in to the development property.
- Increase in loose trash on the surrounding properties.
- The City and Township have many other properties that are zoned and already available for development.

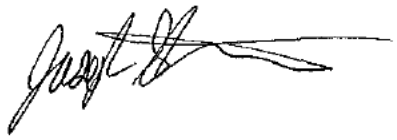
Please note that there is also a legally binding agreement between the city and township on how matters of annexation are to be conducted (Public act 7 of 1967 is attached). Specifically section 12, "Boundary Protection," on the attached agreement dated **December 4th, 2006**.

Also note that there are inconsistencies in many of the submitted maps with regards to the adjoining parcels south of the development. The correct map will show multiple vertical parcels between the development site and residences on the north side of Turrill Road. These vertical parcels are owned by the residences on Turrill Road. An updated map is attached.

We are asking that you oppose and dismiss docket number 15-AP-03, and leave this matter in the hands of the local community represented by Lapeer Township and Lapeer City.

Thank you so much for your help.

Sincerely,



Joseph Strelchuk

STATE BOUNDARY COMMISSION

INTERLOCAL AGREEMENT

CITY OF LAPEER - TOWNSHIP OF LAPEER

AGREEMENT TO SHARE REVENUE AND MUNICIPAL SERVICES

PUBLIC ACT 7 OF 1967 (Extra Session) As Amended

This Agreement made on the 4th day of December, 2006, and reaffirmed on the 14th day of March, 2007 between the CITY OF LAPEER, a Michigan Municipal Corporation, with offices at 576 Liberty Park, Lapeer, Michigan, (hereinafter referred to as the "CITY") and the TOWNSHIP OF LAPEER, a Michigan Municipal Corporation, with offices at 1500 Morris Road, Lapeer, Michigan, (hereinafter referred to as "TOWNSHIP").

WHEREAS, certain areas within the TOWNSHIP, located south of the CITY, are presently in need of sewer and water services; and

WHEREAS, the most economically feasible way to provide sewer and water services to these areas is through an agreement between the TOWNSHIP and the CITY to provide that one area be annexed to the CITY and that another area remain in the TOWNSHIP, with both receiving CITY sewer and water service; and

WHEREAS, the provision of municipal sewer and water services to the area would further the economic well being of both the CITY and TOWNSHIP by increasing the probability of quality development, protecting the environment, and enhancing the tax base; and

WHEREAS, the CITY and TOWNSHIP wish to share the resulting property tax revenue and cooperate to encourage quality development; and

WHEREAS, the TOWNSHIP wishes to provide zoning protection for its existing residential areas by securing assurances that development on annexed property will be compatible with TOWNSHIP zoning;

NOW THEREFORE, by authority of Act 7 of the Public Acts of 1967 (Extra Session), as amended, and in consideration of the covenants and conditions hereinafter set forth, the parties agree as follows:

Dept. of Licensing & Regulatory Affairs
FILED

MAR 14 2016 '15 AP 03

STATE BOUNDARY COMMISSION

1. PROPERTY DESCRIBED. The real property for which revenue will be shared and municipal services provided pursuant to this Agreement is legally described and shown on the attached Exhibits A and B. The TOWNSHIP consents to the annexation and the CITY agrees to accept the annexation of the property legally described and specified by tax parcel identification numbers on Exhibit A and also designated on the Exhibit B map, both of which are attached hereto and made a part hereof, to the CITY. However, no parcels of land within the designated area shall be annexed to the CITY without the written consent of the property owner.

2. JURISDICTION. The CITY shall have full jurisdiction, including the powers of taxation and zoning, over the annexed areas. Although the CITY shall have full jurisdiction, the development of property within annexed areas shall be subject to the provisions of this Agreement.

3. SEWER AND WATER ACCESSIBILITY. The CITY agrees to make municipal sewer and water services available to the areas shown on the Exhibit B map. Sewer and water services shall be made accessible within eighteen (18) months of the date of execution of this Agreement. For purposes of this Agreement the term "accessible" shall mean that sewer and water lines with sufficient capacity to serve any developments approved by the CITY or TOWNSHIP within the Exhibit B map area shall be brought to the boundary between the prior CITY limits and the northernmost area to be annexed. "Sufficient capacity" for water lines shall mean the ability to provide a standard minimum pressure of thirty-five (35) pounds per square inch (p.s.i.) throughout any lines constructed and a minimum fire fighting capacity of one thousand five hundred (1,500) gallons per minute at twenty (20) p.s.i. minimum residual pressure.

4. SEWER AND WATER TAPS AND LINES. The CITY shall provide up to one thousand five hundred (1,500) sewer taps and one thousand five hundred (1,500) water taps to be used for single-family residential dwellings in the TOWNSHIP areas designated on the Exhibit B map. In the case of properties located in the TOWNSHIP adjacent to the west side of M-24, the sewer and water taps may also be used for offices. None of the sewer and water tap-ins may be used for commercial, industrial, apartments or attached condominium units. User rates shall be one and one-half (1.5) times the regular CITY rates. Sewer tap-in fees for properties located in the TOWNSHIP shall be Six Thousand ($6,000.00) Dollars per residential equivalent unit or one and one-half (1-1/2) times the rate applicable within the CITY, whichever is greater. A "residential equivalent unit" shall be deemed to be the number of gallons of sewage discharged from a dwelling unit or, in the case of nonresidential uses, shall be deemed to be three hundred (300) gallons per day. Water tap-in fees for properties located in the TOWNSHIP shall be one and one-half (1-1/2) times the rate applicable within the CITY. The CITY shall be responsible for providing the necessary sewer and water capacity. However, the cost of extension of sewer and water lines to the building sites shall be the responsibility of the property owners. At least three hundred (300) of the sewer and water taps shall be reserved for twenty-five (25) years from the date of this Agreement for single-family dwellings which are in existence as of the date of the Agreement. During the same twenty-five year period, a maximum of seven hundred (700) sewer and water taps may be used in the area north of I-69 expressway and a maximum of eight hundred (800) sewer and water taps may be used south of I-69. After the twenty-five (25) year

time period expires, any unused sewer and water taps may be used anywhere within the TOWNSHIP areas designated on the Exhibit B map. All sewer and water lines constructed in the CITY or TOWNSHIP areas depicted on the Exhibit B map shall belong to the CITY and shall be the responsibility of the CITY to operate and maintain. All such lines shall be constructed in compliance with and operated under the provisions of CITY sewer and water ordinances. In the event the TOWNSHIP ever develops its own sewer or water system it shall have the right to take ownership and control of any lines in the TOWNSHIP which were constructed at the expense of property owners and the CITY shall relinquish ownership and control at no charge to the TOWNSHIP. The TOWNSHIP shall reimburse the CITY for the undepreciated value of any water or sewer lines taken over by the TOWNSHIP which were constructed at CITY expense. The TOWNSHIP shall not have the right to take over any water line which is a necessary part of a loop for water lines within the CITY.

5. SEWER AND WATER FRANCHISES AND FEE COLLECTIONS. The TOWNSHIP shall grant a franchise to the CITY to provide sewer and water service within the areas designated in this Agreement and shall extend such franchise upon any expiration as long as any users in TOWNSHIP are connected to CITY sanitary sewer and/or water services. The TOWNSHIP shall also adopt an ordinance which allows the CITY to notify the TOWNSHIP as to any delinquent sewer and water charges and have the amounts placed on the TOWNSHIP tax assessment roll for collection from the responsible property owners. TOWNSHIP agrees to add to its real property tax billings, at the request of the CITY, the amount of any delinquencies owed to the CITY by sewer and/or water users located in the TOWNSHIP.

6. SEWER AND WATER OPERATIONS AND SERVICES. The CITY shall provide the necessary services to operate the sanitary sewage and water system within the TOWNSHIP for any TOWNSHIP users who tap into the CITY sewer or water system pursuant to this Agreement. These services shall include, but not be limited to, billings, maintenance, repairs, and meter readings. The CITY shall have the right to inspect individual tap-ins and the right to make whatever inspections or investigations are reasonably necessary to protect the health, safety and welfare of the public and to take appropriate remedial action. In the case of manufactured homes located within manufactured housing parks, a single meter owned by the park owner shall be installed for billing purposes.

7. DEVELOPMENT RESTRICTIONS. The TOWNSHIP hereby approves of development on any annexed land described in attached Exhibits A and B so long as it is developed under CITY zoning ordinance provisions which are substantially the same as the ordinance provisions applicable in the TOWNSHIP at the time of the signing of this Agreement. For any proposed development not in substantial compliance with TOWNSHIP ordinances, the TOWNSHIP shall have the right to review and approve or deny the site plan for any such development, which site plan approval shall not be unreasonably withheld. In order for the TOWNSHIP to determine substantial compliance, the CITY shall forward to the TOWNSHIP a copy of all site plans submitted for development within the annexed areas. Said site plans shall be forwarded to the TOWNSHIP as soon as they are received by the CITY. The land in Section 18 which is part of the previously approved Planned Unit Development (PUD) shall only be developed in compliance with a PUD plan which is substantially the same as the Plan approved by the Lapeer Township Planning Commission. In addition, in the event property located in the north one-half of Section Four is ever annexed into the CITY, it shall only be developed in

compliance with zoning regulations mutually agreed upon between the TOWNSHIP and the CITY.

8. SHARING OF PROPERTY TAX REVENUE. As to any assessable real or personal property located within any annexed area described in Exhibit A, CITY shall each year pay to the TOWNSHIP the equivalent of two and one-half (2.5) mills per One Thousand ($1,000.00) Dollars of taxable value, or the then-current TOWNSHIP millage rate, whichever is larger. In no event shall the annual payment exceed the equivalent of three and one-half (3.5) mills. The first such payment shall be due by March 1, 2008 and each subsequent payment shall be due on or before March 1 of each year, in perpetuity. Said annual payment to the TOWNSHIP shall be accompanied by a list of all real and personal properties in the annexed areas and the taxable values for those properties. In the event the property tax system in the State of Michigan is changed to such an extent that the millage equivalent payments provided for herein would not substantially carry out the intent of this paragraph, the parties shall negotiate a payment system which would be as nearly identical to that specified herein as reasonably possible.

9. COMMUNITY CENTER. The CITY shall provide TOWNSHIP residents membership in the CITY Community Center on the same terms and costs as those available to CITY residents. The obligation to provide access shall continue so long as the CITY operates a Community Center or comparable facility.

10. TURRILL ROAD. The CITY shall upgrade or have the developers of property upgrade that portion of Turrill Road adjacent to any annexed area to accommodate traffic generated by any development within the annexed areas. The CITY and the TOWNSHIP shall cooperate to see that Turrill Road is improved for the entire distance between M-24 and Saginaw Street/Clark Road. In order to accomplish the purposes of this paragraph, the TOWNSHIP shall transfer any jurisdiction it may have over that portion of Turrill Road to the CITY upon the request of the CITY.

11. POLICE SERVICES. The CITY shall provide police protection to the entire area designated for future annexation in Exhibits A and B, both before and after annexation actually takes place. The TOWNSHIP shall provide the CITY with a letter of authorization for the CITY police to have jurisdiction within the future annexation area.

12. BOUNDARY PROTECTION. The boundaries of the CITY shall not be extended into any lands adjacent to lands described in this Agreement in the absence of explicit TOWNSHIP approval. In the event there is mutual agreement to any such future additional annexations, all of the terms of this Agreement shall apply to any such annexations. To accomplish the intent of this Agreement provision, the CITY shall not file, support or encourage annexation petitions with the State Boundary Commission. Both the CITY and the TOWNSHIP commit to openly oppose any such annexation petitions which may come up for public hearing at the State Boundary Commission. The provisions of this section shall be applicable for a period of fifty (50) years from the date of this Agreement.

13. OTHER ASSETS AND LIABILITIES. No other assets or liabilities shall be divided between the CITY and the TOWNSHIP as a result of the annexations authorized by this

Agreement. The CITY shall be responsible for all costs and maintenance related to streets, street lights and other municipal facilities on land annexed into the CITY.

14. AGREEMENT COMPLIANCE. In the event the CITY or TOWNSHIP does not comply with the requirements of this Agreement, the other party shall notify the party which is not in compliance in writing of exactly how the requirements have not been complied with. Said notice shall be personally served on the Lapeer City Manager or the Lapeer Township Supervisor, and mailed by first class mail to the Lapeer City Hall or Lapeer Township Hall address. Failure of the party alleged to be in breach of the Agreement to comply with the specified requirements within ninety (90) days from the date said notice is served as described herein, shall entitle the other party to commence litigation to enforce the contractual obligations. In the case of utility service disputes, the time period shall be three hundred and sixty-five (365) days rather than ninety (90) days. The losing party in any such litigation shall reimburse the prevailing party for all costs and attorney fees incurred.

15. RECORDING. The CITY shall record this Agreement within 30 days of the date of its execution, with the Michigan Secretary of State, the Lapeer County Clerk, and the Lapeer County Register of Deeds.

16. AGREEMENT DURATION, AMENDMENT AND TERMINATION. This Agreement shall continue in effect in perpetuity from the date of execution by both parties. However, this Agreement may be amended or terminated by mutual written agreement of the CITY and TOWNSHIP. This Agreement could also have been terminated by the electors of either the Township of Lapeer or the City of Lapeer if a qualifying petition for a referendum was filed within the appropriate municipality within forty-five (45) days of the meeting at which the Agreement was approved by the Lapeer Township Board or the Lapeer City Commission. The Lapeer Township Board approved the Agreement on August 14, 2006 and the Lapeer City Commission approved the Agreement on October 16, 2006.

17. SEVERABILITY. None of the agreements and covenants contained herein are severable, except for the recording requirements in Paragraph 15.

Petition to oppose State Boundary Commission Docket No. 15-AP-03

Petition summary and background	This petition is to oppose the annexation of 7 Lapeer Township parcels into Lapeer City per State Boundary Commission Docket No. 15-AP-03. The annexation of these parcels in the middle of our residential Lapeer Township neighborhood is inappropriate along with the large development that is to be built.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now and oppose the annexation of these parcels per docket 15-AP-03.
