

**XIII. TERMINATION:**

This agreement may be terminated by any party to this agreement by providing the other parties of this agreement with written notice thirty (30) days prior to the time the party wishes to withdraw its service from the *Reciprocal Mutual aid* Agreement.

**XIV. EFFECTIVE:**

This agreement becomes effective for each agency on the date signed by its authorized representative and submission to the (Central Dispatch Authority, County Chief's Association, etc.) SEE ATTACHMENT.

**XV. AMENDMENTS:**

As changes occur, this agreement can be amended by the majority of the participants.

**XVI. COMPLIANCE**

Violations of this policy, or portions thereof, may result in disciplinary action.

**XVII. OFFICERS ASSIGNED TO OTHER AGENCIES**

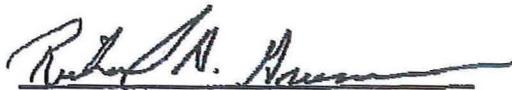

Officers of this department assigned to or assisting other law enforcement agencies will be guided by this policy.

**XVIII. APPLICATION**

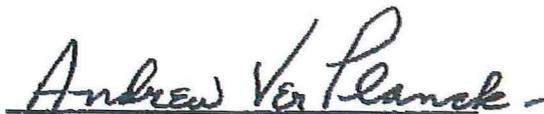

This order constitutes department policy, and is not intended to enlarge the employer's or employee's civil or criminal liability in any way. It shall not be construed as the creation of a higher legal standard or safety or care in an evidentiary sense with respect to third party claims insofar as the employer's or employee's legal duty as imposed by law.

**LAPEER COUNTY LAW ENFORCEMENTS

We all want the finer things in life. Love, comfort and safety are at the top of everyone's list. For a lot of people who live in the fine state of Michigan, safety isn't a problem, but we don't live in the safest state, either. Michigan is somewhere in the middle.

The purpose of this post is to determine where the safest places to live are in the Wolverine State. Those places where crime is usually something you hear about on Facebook, but not in your local paper.

After analyzing 194 places in Michigan with a population of more than 5,000, we came up with this list as the safest places here:

1. Gaines Township
2. Raisin Township
3. Lapeer Township
4. Thetford Township
5. Grosse Ile Township
6. Spring Arbor Township

## How we calculated the safest cities in Michigan

While there are surveys and public polls on what cities in a state are the safest, we didn't want to rely on speculation and opinion. Instead, we looked at the hard numbers from the FBI's most recent report of crime (2014). Specifically, we analyzed the FBI's Uniform Crime Report which summarizes the number of property crimes and violent crimes in each city per year. We used three criteria:

- Violent crimes per capita (murders, assaults, rapes, armed robberies)
- Property crimes per capita (thefts, burglaries, motor vehicle thefts)
- Total crimes per capita

For example, there were a total of 14 crimes committed in Gaines Township which had a reported population of 6,268. That means the number of crimes per capita is 0.00223 which translates into a 1 in 448 chance of being the victim of a crime.

We only looked at cities that have populations of more than 5,000 people reported to the FBI in 2014. This left us with a total of 194 [places in Michigan](#) to rank.

We ranked each place for each criteria from 1 to 194 where 1 in any particular category is the safest.

Next, we averaged each places three criteria to create a Safety Index. We crowned the place with the lowest overall Safety Score "The Safest Place In Michigan".

The safest city, based on population, is Gaines Township. The most dangerous? Muskegon Heights, where residents had a 1 in 15 chance of being the victim of a crime.

**Note:** This report is not an analysis of the effectiveness of local police departments, nor does it reflect the fact that people from out of town may come into a community and cause a crime. It simply looks at where crimes occurred most frequently, based on a city's population.

The Lapeer County Comprehensive Development Plan rates the proposed annexation area: G-2, Controlled Growth Sector.

- **Hadley Township's** Master Plan, (adopted 2004), proposes core residential around the "Hamlet Mixed Use" at the intersection of Pratt and Hadley Roads. The County Plan calls this area a Controlled Growth Sector that encourages mixed use, residential, and commercial uses. The Township's light industrial area is just south of Hadley "Village" on the west side of Hadley Road. The intent of that designation was to accommodate small quasi-industrial uses such as contractor's yards rather than having them spread throughout the community. The County Plan calls for the Reserved Open Sector is this area.
- **The Imlay Township** Plan, (adopted 2002), has indicated a growth area around Imlay City similar to the County's call for a Controlled Growth Sector. The Township's plan carries office and retail businesses north to Bowers Road. The County has designated the an additional Controlled Growth Sector south of the M-53 and Weyer Road intersection to limit the scattered commercial sprawl along the M-53 corridor, north of Imlay City.

Along the length of the **Imlay Township's** eastern boundary, their Composite Land Use Plan shows single-family residential at a density from 0.5 to 3.0 units per acre. The County Land Use Plan prefers to limit the development to agricultural uses and residential development on lots generally 5 acres or larger.

The other area in conflict between the County Plan and Township Plan are the properties to the southeast of Imlay City. The Township has asked for low density, single family housing (rural residential) with density dependant upon the availability of public services. The County Plan has designated this area as an Enterprise Zone due to its location as a regional transportation corridor situated along I-69 with a full intersection with M-53. The area would be ideal for a Research and Office Tech Center. A segment of this zone is currently used as an extractive operation.

- **The Lapeer Township** Plan, (adopted 1994), also shows a mixture of commercial and industrial uses on Imlay City Road, just east of Lapeer. The predominant character of this area is commercial, extending out to the intersection with Wilder Road. The County calls for a Controlled Growth Sector at the intersection of Imlay City Road and Wilder Road. Promotion of additional commercial could lead to an

unsightly and inefficient scattered commercial strip along Imlay City Road.

South of the City of Lapeer, at the intersection of M-24 and I-69, the Township of Lapeer has designed Planned Unit Development (PUD), moderate density, and multi-family uses. The PUD is designed as a mixed-use development that allows for a more innovative approach to development. The County designates this area as a Restricted Growth Sector.

- **Marathon Township's** Master Plan (adopted 1995, amended 2001), is similar to the County Plan in requiring a Controlled Growth Sector around the Villages of Otter Creek and Columbiaville. Where the Township's and County Plans disagree in is the Columbiaville Road Commercial Area, where it intersects with North Lake Rd. There is currently little commercial development at this intersection. In addition, the Otter Lake/Fostoria Roads Commercial/Industrial area on the Township Plan is noted as a Reserved Open Sector. The Washburn Road Industrial Area in the Township's plan is so designated to accommodate the chemical and gas scrubbing plant currently located on the site. No additional development is advised or planned for the area. The County recognizes the plant site as a Restricted Growth Sector that discourages further residential or commercial/industrial development.
  
- **Mayfield Township's** Master Plan, (adopted 1995), allows for single-family, multi-family, and commercial uses around the City of Lapeer consistent with the County's Plan of a Controlled Growth Sector bordering the City. The plans are also in agreement that the area between Haines and Bowers Roads and east of Roots Lake Road is an area for intense development of commercial and industrial uses. The plans differ along M-24 between Sawdust Corners and Coulter Road. The Township call for single-family residential and commercial whereas the County recognizes the existing commercial development and discourages future growth in the Restricted Growth Sector. Mayfield Township has designed lands along M-24 and the southern portion of the Township as single-family residential. The text of the Master Plan does not give any guidelines for the allowable density.

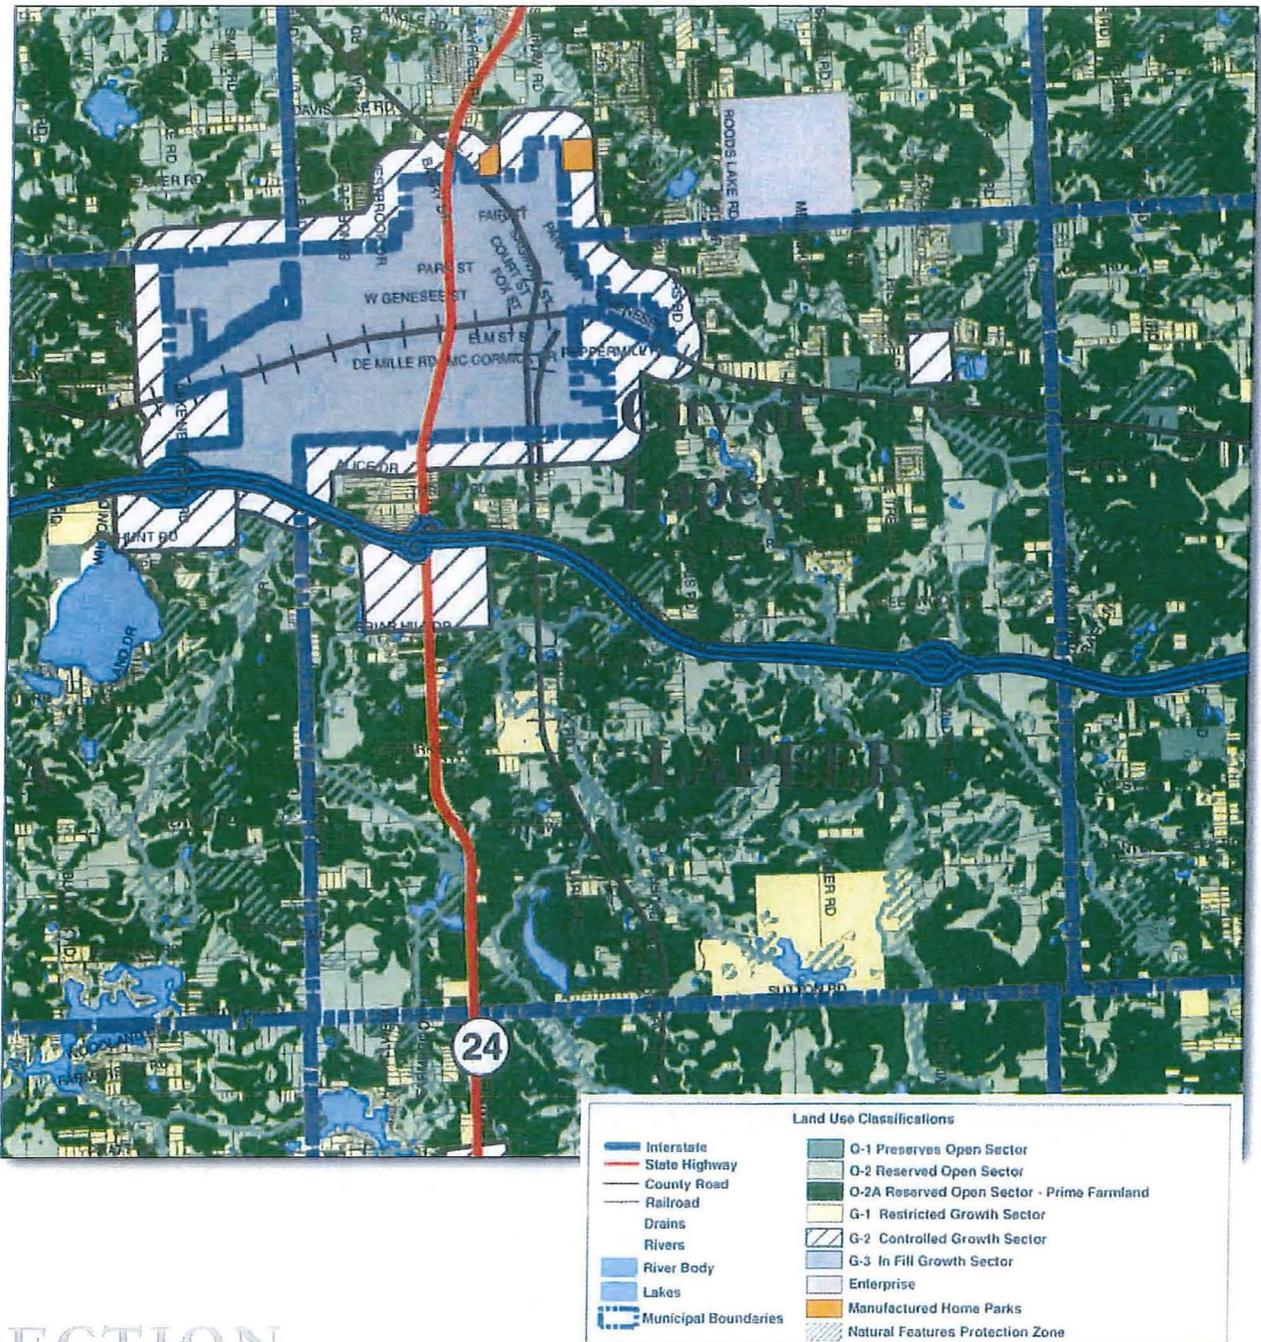

## G-2 Controlled Growth Sector

This designation is intended to be the main development zones within the County. These areas are located around existing cities and villages as well as major intersections where existing infrastructure and facilities are already present. Further, the designation promotes the mixture of uses such as residential and commercial. The residential density is envisioned to be approximately 0.5 to 2.0 dwelling units per acre.

This proposed commercial development exists in the center of a residential neighborhood along Baldwin Road. It is most imperative that the neighborhood is protected from the effects of commercial development that is not limited to; traffic, lights, and noise. We are not certain that if development took place that a proper transition of greenbelt can be provided.

A resolution opposing this annexation for the above reasons was approved by the Lapeer Township board at our meeting on February 8<sup>th</sup>, 2016.

## RESOLUTION OF OPPOSITION OF ANNEXATION REQUEST (Docket No. 15-AP-03)

At a regular meeting of the Lapeer Township Board, held on the 8th day of February 2016 the following resolution was offered by Board member B. Blaine and supported by board member P. Thick.

**WHEREAS**, the Township of Lapeer and the City of Lapeer entered into an Interlocal Agreement to Share Revenue and Municipal Services under Public Act 7 of 1967, and said agreement was signed on the 4<sup>th</sup> day of December, 2006 and reaffirmed on the 19<sup>th</sup> day of March 2007.

**WHEREAS**, the aforementioned agreement contains seventeen (17) conditions that have been mutually agreed upon by both municipalities; number 12 of said agreement stating:

... the boundaries of the CITY shall not be extended into any lands adjacent to lands described in this Agreement in the absence of explicit TOWNSHIP approval...The CITY shall not file, support or encourage annexation petitions with the State Boundary Commission. Both the CITY and TOWNSHIP commit to openly oppose any such annexation petitions which may come up for public hearing at the State Boundary Commission....

**WHEREAS**, this document has been signed by both the City of Lapeer and the Township of Lapeer officials, the corresponding resolution filed and approved by the Office of the Great Seal, Michigan Department of State.

**WHEREAS**, the reference to the "Annexation by Choice" area per the above agreement located on the east side of the M-24 corridor does not pertain to properties located on the west side of the M-24 corridor.

**WHEREAS**, the proposed five (5) parcels of land are totally encapsulated by Township residentially zoned and occupied properties on the north, south and west sides and are not Master Planned for commercial zoning.

**WHEREAS**, police and fire services, WILL not change due to annexation into the City of Lapeer, the same services are available regardless of the entity boundaries; also in place throughout Lapeer County is a mutual aid agreement further providing services regardless of municipal boundaries,

**WHEREAS**, the Agreement to Share Revenue and Municipal Services of December 2006 specifically provides for City sewer and water taps for office use without annexation into the City.

**WHEREAS**, the office of the great seal, and Michigan Department of Transportation both recognize in their own formal documents the validity and reference items set forth within the Interlocal Agreement as approved and signed in December of 2006.

**THEREFORE, BE IT RESOLVED** that Lapeer Township based upon valid and legal binding documents and the aforementioned reasons opposes the annexation of said properties into the City of Lapeer.

Roll Call Vote: Ayes: B. Blaine, P. Thick, S. Jarvis, L. Taylor, D. Walker  
Nays: None
