

Part 14 - Conveyors

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This dynamic one day seminar is intended for employers committed to ensuring their facility meets or exceeds the requirements for employee safety contained in MIOSHA General Industry Safety Standard, Part 14 Conveyors. Attendees will recognize, from multiple examples, the types of conveyors commonly found in the workplace. Detect the associated hazards that employees are potentially exposed to, identify the appropriate guarding and worker protection for those hazards. Review the safety related design, electrical, and specific provisions for the identified conveyors. During group activity evaluate and analyze fatality case studies for rule violations and investigate contributing factors.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Identify the types of conveyors commonly found in the workplace.
- ▶ Describe employer responsibilities for inspection and maintenance of conveyor components and employee training.
- ▶ Detect the hazards associated with conveyor usage including guarding, barriers, counterweights, crossovers, walkways, and choose appropriate worker protection.
- ▶ Recognize the safety related electrical and conveyor specific provisions of the standard.

The meeting site and parking is accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Licensing and Regulatory Affairs is an equal opportunity employer/program.

New

MIOSHA Education Training Materials Have Gone Electronic

MIOSHA Training Institute (MTI) has changed the delivery of its printed education materials to an electronic format.

The student training manual and course reference materials will be provided in electronic format via email for students to download and print before class if they wish.

No hard copy textbook will be provided at the class. Upon arrival at class, each student will also receive a flash drive containing these materials which is theirs to keep. If you wish to bring a copy to class, you have the option to **download and/or print** the course materials in advance.

Important: When registering for this class, please provide your complete email address.

Remember to download your course handouts ahead of time!

Frequently Asked Questions

Q: Will I be able to print my materials at the seminar or workshop?

A: No printing services will be available. Print or download the presentation slides before you arrive for the class.

Q: What electronic format will the handouts be in?

A: All materials will be available as PDF documents.

Q: Will I be able to charge my device at the seminar or workshop?

A: We recommend that your device is fully charged before you arrive. Charging stations may not be available in the classroom.

Q: What happens if I do not receive an email?

A: In the unlikely event that you do not receive the link via email, please call the contact number listed on the next page for assistance.

Facilitator

Chris Johnson is an Occupational Safety Consultant with the Consultation Education and Training Division of MIOSHA. Chris currently provides consultation and training services for Southwest Michigan counties.

Before working with the State of Michigan, Chris was a Safety Chair at a MVPP STAR manufacturing facility in West Michigan. His responsibilities included incident investigation, safety training, employee engagement, and developing and working with different employee lead safety teams in order to enhance the safety culture. Chris also has previous experience in the insurance industry, working with accident and liability investigations.

Chris is a graduate of Lake Superior State University with a Bachelor of Science degree in Fire Science and is a licensed fire fighter and emergency medical technician in the State of Michigan.

Presenters: Chris Johnson, Occupational Safety Consultant and Valerie Chunko, Senior Occupational Safety Consultant; MIOSHA-CET Division
