

## An Informative Full-Day Seminar:

Parts 42, 92, and 430 -

# Hazard Communication and Right-to-Know Requirements for General Industry and Construction

## 1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

This course is designed to provide the learner with an understanding of the requirements of the 2012 MIOSHA Hazard Communication Standards for Construction Safety and Health, General Industry Safety, and Occupational Health, (Parts 42, 92, and 430) as well as Right-To-Know Requirements in Act 154. This includes the new requirements related to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Upon completion of this class, participants will be able to evaluate an existing hazard communication program and/or create and implement a hazard communication program that is compliant with the 2012 changes. The goal of the class will be to protect employees by increasing employer compliance with the requirements of this standard.

Required Class for  
General Industry  
Level Two  
MTI Certificate

### Agenda

*We offer a flexible program agenda to emphasize the health and safety topics you want most.*

- ▶ Describe purpose and scope of Hazard Communication (Haz Com) Standard and recognize exempt employers or conditions.
- ▶ Identify the requirements for compliance with the Haz Com Standard.
- ▶ Classify chemicals using the Globally Harmonized System of Classification and Labeling of Chemicals (GHS) from the appendices of the Haz Com Standard.
- ▶ Evaluate chemical labels and Safety Data sheets (SDSs).

***This course has been approved for both residential builders pre-licensure and continuing safety training requirements.***

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

# Facilitator

Jenelle Thelen is an Industrial Hygienist with MIOSHA Consultation Education and Training serving the lower central Michigan region. She rejoined MIOSHA in June, 2012 adding to her previous service with MIOSHA CET from 2000-2005.

Jenelle has over 25 years of experience in industrial hygiene, occupational safety and environmental regulatory compliance. Her work experience includes: laboratory and regulatory compliance within industrial manufacturing; Training Manager and Associate Director of Safety for the University of Kansas Medical Center; Nursing Home Consultant/Trainer for the Lansing Area Safety Council; and Safety & Health Coordinator for the Michigan Department of Community Health.

Jenelle has a Master of Science in Industrial Hygiene from the University of Central Missouri and a Bachelor of Science in Secondary Education – Science.

Presenters: Jenelle Thelen, Senior Industrial Hygienist and Audrey Carlstrom, Industrial Hygienist; MIOSHA-CET Division
