

An Informative Two-Day Seminar:

# MIOSHA Construction 10-Hour Course

## 1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

This 10-hour program presents an overview of MIOSHA regulations for the construction industry. Detailed information is presented to enable the participant to develop an accident prevention plan as required by Rule 114 of MIOSHA Construction Safety Standard Part 1, General Rules. An overview of MIOSHA inspection procedures is presented, as well as the most frequently cited MIOSHA violations in the construction industry. Participants gain detailed information regarding construction and health standards relative to the industry. Emphasis will be placed on recognizing hazards and describing safe work practices to eliminate or control those hazards. **Students will receive both MIOSHA and OSHA 10-hour cards upon successful completion of the class.**

### Agenda

- |  |  |
|--|--|
| ▶ Introduction to OSHA/MIOSHA                | ▶ Part 11 Fixed and Portable Ladders       |

***This course has been approved for both residential builders pre-licensure and continuing safety training requirements.***

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

# Facilitator

Jeremy Hidalgo has worked for the Construction Safety & Health Division as a Construction Safety Enforcement Inspector for ten years. Prior to MIOSHA, Jeremy was a Journeyman Electrician with IBEW Local 665. He completed a five year apprenticeship program through Local 665 where he developed a passion for worker safety. Jeremy has worked on many diverse projects, including residential remodels, commercial projects and large industrial facilities.

Jeremy's safety career began when he was selected as a Safety Representative for electricians while working at the General Motors Delta Assembly plant. Jeremy's knowledge of residential, commercial and industrial safety will be valuable and accessible to all construction contractors while working for the CET Division.
