

# MIOSHA ALLIANCE PARTNERS' ANNUAL MEETING 2016

**Bill Lykes – Alliance Coordinator**

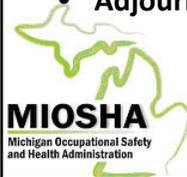

## Agenda

- **Welcome** – Nella Davis-Ray, CET Division Director
- **Alliance Video**
- **MIOSHA Grant Update** – Laurie Lorish, MIOSHA Grant Administrator
- **Alliance Partner Grant Activities**
  - MGIA – Diane Andrews-Banks
  - AGC – Phu Nguyen
  - University of Michigan, Center for Occupational Health and Safety Engineering – Curtis Johnson
  - Jason Griffin

## Agenda

- **Alliance Tools and Products**
  - Manufacturing Technology Mutual Insurance Company (MTMIC)
  - Precision Metalforming Association (PMA) and West Michigan Districts
- **Updates- Bill Lykes**
  - 2016 New Agreements/Renewals
    - OPERATING ENGINEERS LOCAL 324 JOURNEYMEN & APPRENTICE TRAINING FUND INC. (OE 324 JATF)
  - 2017 Potential Renewals
- **Alliance Website**
- **Open Discussion/Improving Alliance Program**
- **Adjournment**

**Nella Davis-Ray**  
**CET Division Director**

## Alliance Video

## MIOSHA CET Grant Program Fiscal Year 2017

Department of Licensing and Regulatory Affairs  
(LARA)

Michigan Occupational Safety And Health Administration  
(MIOSHA)

## Background of the CET Grant Program

- Act 154 – Occupational Safety and Health Act
- In 1979, the grant program was established that is funded by a levy accessed on worker compensation fees.

## Objectives of the CET Grant Program

**To provide worker safety and health education, training and prevention services.**

- For more **employers and employees**;
- For more **small establishments** (with fewer than 100 employees); and
- **Encourage the development of strategies different** from those being provided by the CET Division; and

## Objectives of the CET Grant Program

- **Encourage alternative providers** for employees and small establishments.
- **Increase the exposure of MIOSHA's services** available to the public, especially those of the CET Division, by use of the mini grants and other appropriate measures.

## Program Funding

- Based on the availability of funds as provided by worker compensation levy.
- Grant recipients provide **at least** 10% of the CET grant award in matching funds.
- The overall intent of the department is to fund the best projects.

## Program Funding

Consideration for funding will give priority to projects which provide training and/or assistance in the following targeted issues or audiences:

- **Targeted Industries, Hazards & Issues in the FY2014-18 MIOSHA Strategic Goals.**
- Private industries with **Total Recordable Case (TRC) Rate greater than 3.6**, the average for Michigan, Note Appendix B, Pg. 29 of Request for Proposal (RFP).
- For establishments where **fewer than 100 persons** are employed.
- For establishments experiencing **high incidence rates for particular injuries.**

## Grant Qualifications

- The maximum award will be \$100,000.
- Only 501(C)(3) non-profit entities are eligible.

## Funded Activities

### Training

- Presentations
- Seminars
- Courses

## Funded Activities

### Service Activities

- Providing technical assistance
  - Disseminate information
  - Safety and health monitoring
  - Problem resolution
  - Discussion with safety committee

## Grant Requirements

### Specific Performance Objectives

1. Promoting the use of SHMS
2. Broadcasting MIOSHA CET's services

Each grantee must participate and cooperate in an audit at project-end. Audit elements will include:

## Final Determination of Grant Awards

- Grants are awarded on a fiscal year basis. The deadline for submitting a Request for Proposal (RFP) is in June.
- A review committee will consider the proposals based upon the criteria outlined below and make recommendations to the LARA Director.

## Reporting Requirements

- Quarterly financial and training reports are required.
- A final report is required at the end of the year.

## CET Grant Information

Can be found on the MIOSHA website at:

[www.michigan.gov/miosha](http://www.michigan.gov/miosha)

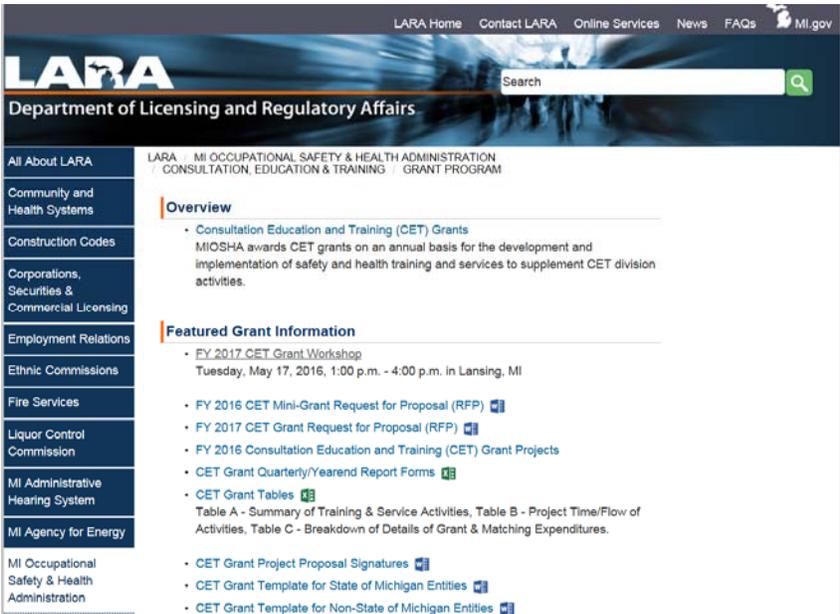

- Consultation Education and Training

- Grant Program

[CET Grants](#)

# CET Grant Website

The screenshot shows the LARA website interface. At the top, there is a navigation bar with links for 'LARA Home', 'Contact LARA', 'Online Services', 'News', 'FAQs', and 'MI.gov'. Below this is a search bar. The main header features the LARA logo and the text 'Department of Licensing and Regulatory Affairs'. A left sidebar contains a menu with categories such as 'All About LARA', 'Community and Health Systems', 'Construction Codes', 'Corporations, Securities & Commercial Licensing', 'Employment Relations', 'Ethnic Commissions', 'Fire Services', 'Liquor Control Commission', 'MI Administrative Hearing System', and 'MI Agency for Energy'. The main content area is titled 'LARA / MI OCCUPATIONAL SAFETY & HEALTH ADMINISTRATION / CONSULTATION, EDUCATION & TRAINING / GRANT PROGRAM'. It includes an 'Overview' section stating that MIOSHA awards CET grants annually for training and services. Below that is a 'Featured Grant Information' section with several bullet points: 'FY 2017 CET Grant Workshop' (Tuesday, May 17, 2016, 1:00 p.m. - 4:00 p.m. in Lansing, MI), 'FY 2016 CET Mini-Grant Request for Proposal (RFP)', 'FY 2017 CET Grant Request for Proposal (RFP)', 'FY 2016 Consultation Education and Training (CET) Grant Projects', 'CET Grant Quarterly/Yearend Report Forms', 'CET Grant Tables' (with sub-points for Table A, B, and C), 'CET Grant Project Proposal Signatures', 'CET Grant Template for State of Michigan Entities', and 'CET Grant Template for Non-State of Michigan Entities'.

## CET Mini Grant

- A CET Mini Grant is a condensed version of a regular CET grant.
- It has a maximum dollar amount of \$5,000, as well as a 10% required match.
- It is available throughout the year and has different deadline restrictions.

## ALLIANCE PARTNERS GRANT ACTIVITIES

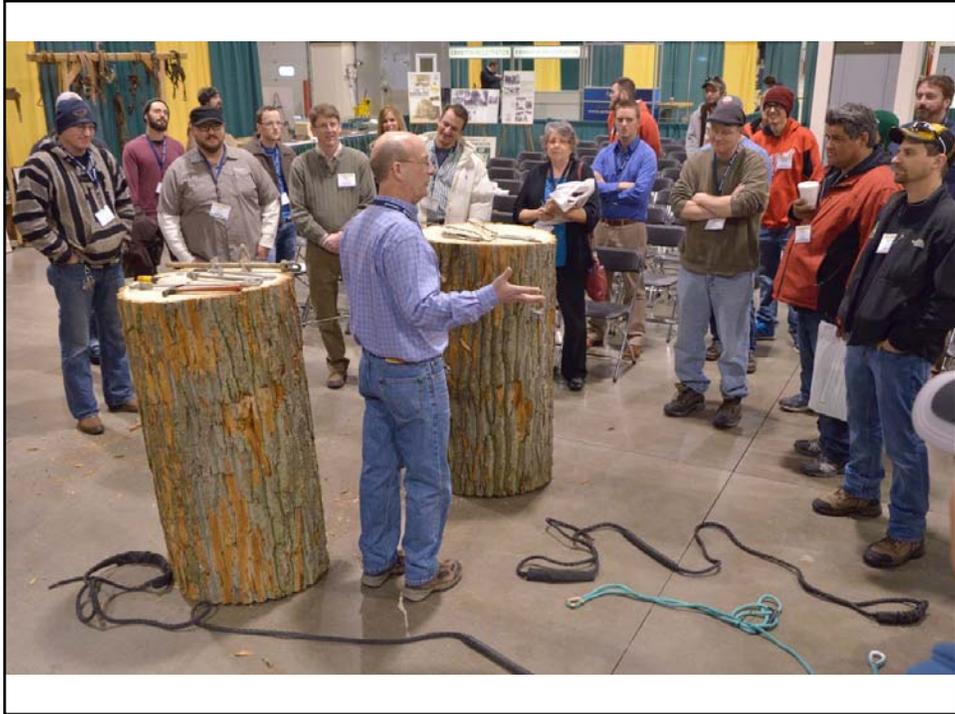

The image features two logos side-by-side. On the left is the MGIA logo, a yellow pentagon with a green outline containing a map of Michigan and a tree, with the text "MGIA MICHIGAN GREEN INDUSTRY ASSOCIATION EST. 1969". On the right is the MIOSHA logo, a green outline of Michigan with the text "MIOSHA Michigan Occupational Safety and Health Administration".

**Green Industry Alliance**

### Provided statewide training:

- Crane Rigging and Signaling
- Confined Space,
- Fall Protection,
- Scaffold
- Steel Erection Safety

Regional public forums was held to provide updates on recent changes to the MIOSHA Construction Safety and Health standards.

## Manufacturing Technology Mutual Insurance Company (MTMIC)

- Machinery Manufacturing Fact Sheet

MIOSHA Fact Sheet  
Consultation Education & Training Division  
Fabricated Metal Product Manufacturing

Michigan's largest group of employers forming OSHA 302 is considered a high hazard industry based on the annual number of non-fatal injuries and deaths reported in the industry. The data shows that 1,000 employees in this industry were injured or killed in 2012. The average number of employees in this industry is 100. This means that 10 employees in every 100 were injured or killed in 2012. Over 1,000 employees in Michigan working in this industry experienced an injury and/or illness that was not work-related. These injuries and illnesses were preventable. Many of these injuries and illnesses were preventable because the employer did not follow OSHA's safety and health standards. The purpose of this fact sheet is to provide information on the most common OSHA violations in this industry and to provide information on the most common OSHA violations in this industry.

OSHA 302 Violation Code	OSHA 302 Violation Description	Number of Violations
1910.133	Use of personal fall protection systems	392
1910.134	Use of fall protection	311
1910.135	Use of fall protection	303
1910.136	Use of fall protection	287
1910.137	Use of fall protection	198
1910.138	Use of fall protection	193
1910.139	Use of fall protection	181
1910.140	Use of fall protection	177
1910.141	Use of fall protection	174
1910.142	Use of fall protection	162

# Alliance Tools and Products

## Precision Metalforming Association

- Press brake: Operator Protection Fact Sheet

MIOSHA Fact Sheet  
Consultation Education & Training Division  
Press Brakes: Operator Protection

**What is a press brake and what materials and parts are used?**  
A press brake is a machine used to bend sheet metal into a desired shape. It consists of a punch and a die. The punch is a cylindrical tool that is used to bend the metal. The die is a V-shaped tool that is used to form the metal into a specific shape. The materials used in a press brake are typically steel or aluminum.

**What are the most common injuries and illnesses associated with press brakes?**  
The most common injuries and illnesses associated with press brakes are lacerations, fractures, and crush injuries. These injuries are often caused by the punch or die striking the operator's hands or feet.

**What are the most common OSHA violations associated with press brakes?**  
The most common OSHA violations associated with press brakes are failure to use proper guarding, failure to use proper locking procedures, and failure to use proper safety procedures.

**What are the most common OSHA violations associated with press brakes?**  
The most common OSHA violations associated with press brakes are failure to use proper guarding, failure to use proper locking procedures, and failure to use proper safety procedures.

Light-Curtain Function Example Diagram

Press Brake Operator Protection Decision Tree Chart

The diagram shows a light-curtain function example where a punch is used to bend a sheet of metal. The light-curtain is used to detect the presence of the operator's hands. If the hands are detected, the machine will stop. The decision tree chart outlines the steps for operator protection, including the use of light-curtains, interlocks, and safety procedures.

## Macomb Community College (MCC)

Signed: September 26, 2005; Renewed: February 5, 2009; April 23, 2012; November 19, 2015

[Home](#) [Milestones and Successes](#) [Related Documents](#) [Activities and Events](#) [Products and Resources](#) [Areas of Emphasis](#)

The Michigan Occupational Safety & Health Administration (MIOSHA) and Macomb Community College (MCC) recognize the value of establishing a collaborative relationship to foster safer and more healthful Michigan workplaces. To that end, MIOSHA and MCC herby form an Alliance to strengthen and grow the MIOSHA Training Institute (MTI).

### Training and Education:

All goals and objectives of this alliance revolve around training and education offered through the MTI. This alliance will support the MTI in the creation and maintenance of quality instruction following best practices in instructional design principles.

### Outreach and Communication:

- Members of industry will continue to have the opportunity to provide input on MTI through the participation in the MTI Advisory Board, feedback sessions, pilot courses, new initiative surveys, and through the ongoing participant involvement and feedback in MTI courses.
- Macomb will present the successes of the MTI at regional and national workforce education conferences.
- MIOSHA will present the successes of the MTI at safety conferences and expositions.
- Communication through the Advisory Boards of Macomb's Workforce Development and Public Service Institute will provide an avenue for input on relevant training topics for industry.
- MIOSHA staff will continuously promote the benefits and successes of the MTI to members of industry.

# Milestones and Successes

## Macomb Community College (MCC)

Signed: September 26, 2005; Renewed: February 5, 2009; April 23, 2012; November 19, 2015

<a href="#">Home</a>	<a href="#">Milestones and Successes</a>	<a href="#">Related Documents</a>	<a href="#">Activities and Events</a>	<a href="#">Products and Resources</a>	<a href="#">Areas of Emphasis</a>
----------------------	--	-----------------------------------	---------------------------------------	--	-----------------------------------

- On September 26, 2005, Macomb Community College and the Michigan Occupational Safety and Health Administration (MIOSHA) signed a formal alliance to help protect the safety and health of Michigan's workers.
- On February 5, 2009, Macomb Community College and the Michigan Occupational Safety and Health Administration (MIOSHA) re-signed a formal alliance to help protect the safety and health of Michigan's workers.
- Macomb's comprehensive Workforce Development Institute (WDI) administers the alliance. The WDI is focused on maintaining Michigan's competitive edge in the global economy - assisting industry in sustaining a highly skilled workforce and supporting meaningful employment opportunities. The college's workforce development and training programs are developed in conjunction with the business and labor community, and are headquartered in Macomb's M-TEC.
- Macomb Community College is one of the nation's leading community colleges, serving more than 30,000 students each semester and reaching more than 350,000 persons each year through cultural and community service programs. The college's comprehensive educational programming includes pre-collegiate experiences, university transfer and career preparation programs, bachelor degree completion and graduate degree programs, workforce training, professional educational and certification, and continuing education and enrichment opportunities.

- The MTI assessment-based certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. The courses offer continuing education credits and maintenance points as well as an opportunity to achieve Level One General Safety and Health, Level Two Safety and Health Management Systems (SHMS), and Safety and Health Compliance certificates. An Occupational Health certificate is also available. MTI courses may qualify an employer for potential penalty reductions during a MIOSHA inspection.

# Areas of Emphasis

## Macomb Community College (MCC)

Signed: September 26, 2005; Renewed: February 5, 2009; April 23, 2012; November 19, 2015

<a href="#">Home</a>	<a href="#">Milestones and Successes</a>	<a href="#">Related Documents</a>	<a href="#">Activities and Events</a>	<a href="#">Products and Resources</a>	<a href="#">Areas of Emphasis</a>
----------------------	--	-----------------------------------	---------------------------------------	--	-----------------------------------

### Areas of Emphasis:

Macomb Community College ([www.macomb.edu](http://www.macomb.edu)) is one of the nation's leading community colleges, providing learning experiences to more than 59,000 students annually. Macomb nationally ranks in the top two percent in the number of associate degrees awarded and is the largest grantor of associate degrees in Michigan. The college's comprehensive educational programming includes pre-collegiate experiences, university transfer and career preparation programs, bachelor degree completion and graduate degree programs, workforce training, professional education and certification, and continuing education and enrichment opportunities.

### MIOSHA Training Institute Mission:

To provide access to consistent, credible, and interactive learning that improves and promotes workplace safety and health for public and private entities that utilizes experiences, new technologies, and best practices that will lead to certification programs and degrees.

To improve and promote public and private sector workplace safety and health through consistent, credible and interactive education and training by utilizing technology, best practices, and experience that will lead to certification programs and degrees.

## Macomb Community College (MCC)

*We are grateful for our affiliation and formal alliance with MIOSHA. The (MTI) MIOSHA Training Institute delivers the highest quality training, bringing people to our location, and highlighting & complimenting our services. Our partnership with MIOSHA has also helped our own staff with the confidence and competence to be able to effectively assist our clients to find solutions for safety. We are proud to be a resource and asset to our business community!*
