

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS
MICHIGAN OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION
BARTON G. PICKELMAN
ACTING DIRECTOR

SHELLY EDGERTON
DIRECTOR

To: Michigan Physicians, Hospitals, Clinics, and Employers

The enclosed material includes an instruction sheet, occupational disease report form, and a listing of several categories of occupational diseases and disorders. This has been mailed to you to assist in your complying with Part 56 of the Michigan Public Health Code which requires physicians, hospitals, clinics, or employers to report all known or suspected cases of occupational diseases. As a result of Executive Orders No. 1996-1, 1996-2, and 2003-18, the responsibility for implementing Part 56 of the Michigan Public Health Code was transferred to the Michigan Department of Licensing and Regulatory Affairs.

The instruction sheet gives some background on Code Requirements and provides guidance on completing the report form. The following list of occupational diseases and disorders is taken from MIOSHA form #300 – Log and Summary of Occupational Injuries and Illnesses – where it is used for the purpose of classifying recordable illnesses. This list has been included for informational purposes and includes typical examples of types of illnesses and disorders under each category and some causative agents. It is not considered to be a complete listing but is to be used simply as a guide.

The Department of Licensing and Regulatory Affairs has a contract with the Department of Medicine, Michigan State University, to assist in the compilation and reporting of Michigan occupational diseases. Additionally, the Health Insurance Portability and Accountability Act of 1996 (HIPPA), Part 164.512 authorizes agencies to collect and receive health information for the purpose of preventing and controlling diseases and related activities.

Any inquiries regarding occupational reporting requirements should be directed to the MIOSHA Technical Services Division, Michigan Department of Licensing and Regulatory Affairs, P.O. Box 30649, Lansing, Michigan, 48909-8149.

Sincerely,

Shelly Edgerton
Director

Classifying Illnesses

Skin diseases or disorders – Skin diseases or disorders are illnesses involving the worker’s skin that are caused by work exposure to chemicals, plants, or other substances. *Examples:* Contact dermatitis, eczema, or rash caused by primary irritants and sensitizers or poisonous plants; oil acne; friction blisters; chrome ulcers; inflammation of the skin.

Respiratory conditions – Respiratory conditions are illnesses associated with breathing hazardous biological agents, chemicals, dust, gases, vapors, or fumes at work. *Examples:* Silicosis, asbestosis, pneumonitis, pharyngitis, rhinitis, or acute congestion, farmer’s lung, beryllium disease, tuberculosis, occupational asthma, reactive airways dysfunction syndrome (RADS), chronic obstructive pulmonary disease (COPD), hypersensitivity pneumonitis, toxic inhalation injury, such as metal fume fever, chronic obstructive bronchitis, and other pneumoconioses.

Poisoning – Poisoning includes disorders evidenced by abnormal concentrations of toxic substances in blood, other tissues, other bodily fluids, or the breath that are caused by the ingestion or absorption of toxic substances into the body. *Examples:* Poisoning by lead, mercury, cadmium, arsenic, or other metals; poisoning by carbon monoxide, hydrogen sulfide, or other gases; poisoning by benzene, benzol, carbon tetrachloride, or other organic solvents; poisoning by insecticide sprays, such as parathion or lead arsenate; poisoning by other chemicals, such as formaldehyde.

Hearing Loss – Noise-induced hearing loss is defined for recordkeeping purposes as a change in hearing threshold relative to the baseline audiogram of an average of 10 dB or more in either ear at 2000, 3000, and 4000 hertz, and the employee’s total hearing level is 25 decibels (dB) or more above audiometric zero (also averaged at 2000, 3000, and 4000 hertz) in the same ear(s).

All other illnesses – All other occupational illnesses. *Examples:* Heatstroke, sunstroke, heat exhaustion, heat stress and other effects of environmental heat; freezing, frostbite, and other effects of exposure to low temperatures; decompression sickness; effects of ionizing radiation (isotopes, x-rays, radium); effects of nonionizing radiation (welding flash, ultra-violet rays, lasers); anthrax; bloodborne pathogenic diseases, such as AIDS, HIV, hepatitis B or hepatitis C; brucellosis, malignant or benign tumors; histoplasmosis; coccidioidomycosis.

Known or Suspected Occupational Disease Report

BACKGROUND AND INSTRUCTIONS FOR COMPLETING KNOWN OR SUSPECTED OCCUPATIONAL DISEASE REPORT

As a result of Executive Orders No. 1996-1, 1996-2 and 2003-18 and Part 56 of P.A. 368 of 1978, a physician, hospital, clinic or employer must report known or suspected cases of occupational diseases or workplace aggravated health conditions to the Michigan Department of Licensing and Regulatory Affairs within 10 days after discovery of the disease or condition on a report form furnished by the department. This requirement does not apply to occupational injuries.

This report is furnished by the Department of Licensing and Regulatory Affairs in accordance with Section 5611 (4) of P.A. 368 of 1978 and is required to be completed and submitted to the Department of Licensing and Regulatory Affairs at the address below for all such cases to fulfill the statutory mandate prescribed by Section 5611 or Part 56 of the Act.

Instructions for completing report:

General:

Multiple reports on the same individual for the same illness should not be submitted. The employer should return this form only if the employee is not referred to a physician, hospital, or clinic. If a physician returns the form indicating a suspected occupational disease and at a later date confirms this occupational disease, an updated form confirming their diagnosis and causative agent should be submitted.

Employers:

If an employer is submitting the form, all questions, with the exception of those indicated for physicians only, should be completed. The form should be completed by the employer at the time of onset, discovery, or suspected occurrence of the employee's illness and returned directly to Michigan Department of Licensing and Regulatory Affairs.

If the employee is referred to a physician, hospital, or clinic, the employer should complete the forms as stated above and the form should then accompany the employee for completion by the medical personnel.

Physician, hospital or clinic:

The questions on the form, with the exception of those indicated for physicians only, may be completed by the employer at the time of onset, discovery, or suspected occurrence of the employee's illness. The form should then accompany the employee at the time of referral to a physician, hospital, or clinic for medical evaluation where the remainder of the form should be completed and submitted to the Michigan Department of Licensing and Regulatory Affairs. If the employee is seen by the physician without a referral from the employer, and the physician diagnoses a suspected or confirmed occupational illness, the entire form is to be completed by the physician and submitted to the Michigan Department of Licensing and Regulatory Affairs.

It is the responsibility of the employer and of physicians, hospitals, and clinics to ensure that the form is properly completed, signed and submitted to the Michigan Department of Licensing and Regulatory Affairs within 10 days after the onset of the disease, suspected occurrence of the disease, or a workplace aggravated health condition. The form must be completed for all suspected or actual occupational diseases or health conditions aggravated by workplace exposure, including death of the employee as a result of the disease or health condition aggravated by workplace exposure.

Completion of this report form does not relieve the employer of the requirements for notification of fatalities, one or more in-patient hospitalizations, amputations, or loss of an eye, and to maintain records of each recordable occupational injury or illness pursuant to the requirements of Public Act 154 of 1974, as amended, the Michigan Occupational Safety and Health Act.
